- Inform you about our American holidays and celebrations
- Help you learn about our religions institutions
- Help with any individual needs or desires

OUR COMMITMENT

One or more of our members will personally accompany you on any of our activities offered. If you need any assistance on anything you face during your stay here, let us know. Our membership comes from all of Wright State University's academic and service units and is very knowledgeable about the university's policies and practices. We are a very diverse group of people who are eager to help you adapt to our community inside and outside the university setting.

OUR EFFORTS TO MAKE YOUR STAY MORE PERSONAL AND ENJOYABLE

Many of our members have taught, lived or conducted research in foreign countries for extended periods of time. We realize the primary goal of your stay here is academic and your visiting department will help you accomplish that goal. Our effort is to help you enjoy living and adapting to this new environment. We have a reception for all international visiting faculty and scholars early in their stay. We enjoy having the visitors visit one or more of our member's homes for a meal or some special occasion. In the past, our members have invited visitors to local theatre, musical, operatic, ballet or sporting events.
