Additional Charges

ISDN or long distance phone calls will also be charged the current per minute line charge.

Scheduling

CaTS strictly adheres to the Registrar's Quarterly Production Schedule. No IVDL class will be scheduled after the "Revised class schedule, draft #1, is returned to Registrar's Office" date.

Site Training

The current interactive audio/video rooms at Wright State University have been designed to be self-sufficient. Although a CaTS technician will be present at the beginning of each event to set up the room and to establish connectivity, the technician cannot stay to assist you during the actual event. Therefore, CaTS offers regular training opportunities to familiarize instructors and/or site facilitators with the interactive audio/video rooms at Wright State University prior to the event. Contact Chris Flannagan at 775-3089 for training information.

Copyright Clearance

WARNING! Federal law provides severe civil and criminal penalties for the unauthorized reproduction, distribution, or exhibition of copyrighted photographs, music, motion pictures, and videotapes. CaTS is committed to compliance with the United States Copyright Revision Act of 1976 and 1980 Amendments relating to the reproduction and display of copyrighted materials. *Copyrighted materials will be displayed only when CaTS has been provided with appropriate documentation from the copyright holder(s) granting permission to use the materials.* See standards sheet for videotape formats and requirements.

Appearance Releases

Anyone participating in a Wright State University sponsored IVDL class or videoconference must sign a Media Appearance Release Form. It is the sole responsibility of the client requesting interactive audio/video services to secure any and all appearance releases before the event takes place. Please call Chris Flannagan at 775-3089 for a copy of the standard Media Appearance Release Form.

Video Recordings:

Your event can be recorded and must be arranged at least two days prior to your event. Media Appearance Release forms are required before any video recording is released from CaTS.
