### System Requirements Check

To login and complete the room selection/retention process, you must meet the following system requirements:

#### Operating Systems/Browser Requirements

Windows (2000 or later)	Compatible	NOT Compatible
	Internet Explorer 6.0+ Firefox 3.0+	Google Chrome Opera Safari
Apple Mac OS (10.4/Tiger or later)	Compatible	NOT Compatible
	Firefox 3.0+	Google Chrome Opera Safari
Linux (Any Firefox-Compatible Distribution)	Compatible	NOT Compatible
	Firefox 3.0+	Google Chrome Opera Konquerer Any other distro-specific browser

Internet Explorer 8.0 is available for download (XP Only; Vista and 7 already have compatible versions):  
<http://www.microsoft.com/downloads/details.aspx?FamilyID=341c2ad5-8c3d-4347-8c03-08cdec8852b&displayLang=en>

Firefox 3.5 is available for download for all operating systems here. If you do not know what browsers you have installed, download and install Firefox: <http://www.getfirefox.com>.

- Pop-Up Blockers Disabled (see video). If you have any toolbars installed (Google, Yahoo, MSN, etc...; you must disable their popup blocker functionality for RMS to function properly.
- Patience. There are a lot of users accessing the system during this process. If you click and your browser appears to go nowhere, take a step back and wait for the system to catch up. Your understanding will make the process run much smoother.

**If you need assistance at any point during the process, please feel free to call us at (937) 775-7172 or click the "Live Chat" link to talk to us live. If you need to call from out of area, call (866) WSU-HOME.**
