

# TALKING SHOP

A Professional Networking Event for Women in STEM

With **Dr. David Lodge**, University of Notre Dame

2011 Carmichael Lecturer in Environmental Sciences

“Talking shop” with colleagues at conferences can leave us feeling energized about our research, facilitate opportunities for collaboration, and promote understanding of funding mechanisms. Why limit these benefits to conferences? Come talk shop with other women in STEM disciplines from across the LEADER Consortium.

Through inter-disciplinary research, Dr. David Lodge has successfully translated basic research into influential public policy. Come with your colleagues for a discussion with Dr. Lodge about his successful strategies for “translational” research.

***Don't forget your business cards!***

**Date:** 20 May, 2011  
**Time:** 9:00 —10:30 AM  
**Place:** Wright State University  
Student Union  
Pathfinder Lounge

*Light refreshments will be served.*
