

EARN A DOCTORAL DEGREE (PH.D.)

at one of the country's leading universities specializing in **Technology-based Learning with Disability.**

YOU CAN MAKE A DIFFERENCE in the life and education of a student with a disability. Join a unique interdisciplinary team of Wright State faculty and graduate students dedicated to creating innovative ways for people with disabilities to overcome barriers in their lives and learning. In this program you'll test the theories of your chosen discipline against the practical challenges of real-world problems faced by people with disabilities.

Bridging the gap

By combining a broad and comprehensive education, realistic work experiences, and both problem-centered and hypothesis-driven research, you will learn how to bridge the gap between:

- the biology of disability
- assistive technologies, and
- the pedagogy of individualized learning.

Interdisciplinary concentration

Technology-based Learning with Disability is an interdisciplinary concentration in these four doctoral programs:

- Biomedical Sciences
- Computer Science and Engineering
- Engineering
- Human Factors and Industrial/Organizational Psychology

**WRIGHT
STATE
UNIVERSITY**

IGERT Fellowships available

Long known for its commitment to students with disabilities, Wright State University is making a difference. You can, too! Apply today for a special IGERT (Integrative Graduate Education and Research Traineeship) Fellowship sponsored by the National Science Foundation!

Eligible students will receive:

- an initial stipend of \$30,000 per year
- tuition and fees paid for three years

Underrepresented minorities, women, and people with disabilities are encouraged to apply.
