

# RESEARCH NEWS

From the Office of Research and Sponsored Programs - Serving the Research Community of Wright State University

Winter 2001 Vol 32 No 2

201J University Hall Telephone 775-2425

## 2001 Research Incentive Program Deadline Approaching

Wright State University's Research Council announces the Research Incentive Program competition for 2001. Approximately \$75,000 is available for awards to eligible faculty in two programs (see box) of support for

### Research Initiation

grants provide seed funds for new research efforts likely to attract external funding. Limited to \$8,000, recently appointed faculty and those without significant external funding are given priority.

### Professional Development

grants are intended for more general and diverse scholarly activities and professional renewal and are limited to \$2,500.

research and other scholarly activity.

Certain restrictions apply to faculty participation in the Research Incentive Program. Because of revisions in the School of Medicine's seed grant program, those faculty are no longer eligible to participate. However, faculty in matrix departments may apply if the work proposed is similar to the kinds of externally funded projects that would normally be processed through the College of Science and Mathematics. In addition, those who received Research Initiation or Professional Development grants in 1999-2000 are not eligible to apply to the same program in this competition. Otherwise, faculty may submit one proposal to either program or different proposals to both programs.

Two copies of each proposal with all appropriate endorsements must be received in the Office of Research and Sponsored Programs (201J University Hall) by 5 p.m., Friday, March 2, 2001. Awards will be announced by April 13, 2001. The guidelines and proposal cover sheets are available from your Dean's office or on the RSP homepage at <http://www.wright.edu/rsp/>.

## DHHS Office of Research Integrity has new mandate for researchers...

I have bad news and good news. The bad news is that the Office of Research Integrity (ORI) of the Department of Health and Human Services has mandated that “research staff” complete a basic program of instruction in the “responsible conduct of research.” How this requirement will be implemented at Wright State will be the subject of a separate memo—the requirement does not go into effect until October 1, 2001. Training must be given in the following nine areas: data acquisition,

management, sharing and ownership; mentor/trainee responsibilities; publication practices and responsible authorship; peer review; collaborative science; human subjects; research involving animals; research misconduct; and conflict of interest and commitment.

The good news, however, is that this does not mean you will actually have to attend a class or series of classes. ORI will be

putting together a course in booklet form that will suffice as a “course of instruction” and that will take about three hours to run through at your own convenience.

So if you are involved in funded research, you can count on having to devote a few hours within the next year to reading this booklet. Please remember, though, that this is a mandate from on high—you can blame the federal government. We here at RSP are innocent!

*Bill Sellers*

*Notes  
From  
the Director*

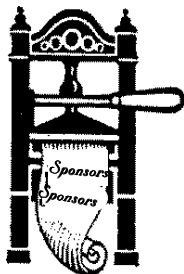

# FYL

## Funding Update

*Funding Update*, RSP’s publication that contains upcoming deadlines for potential funding sources is posted on our website twice a month. An email announcement is sent to the faculty listserv at the time the publication is posted.

*If you are not on the listserv, you will not receive this notification, but you can still access Funding Update on the website.*

If you find it difficult to make the time to browse through the publication, an excellent solution is to sign up for automatic funding alerts through the Community of Science or SPIN databases that are available on our homepage.

## SPIN Adds Funding Alerts

The Sponsored Program Information Network (SPIN) has added the option of emailed funding alerts to the services now available to Wright State faculty and staff. Once you complete a search and save it, you will be prompted to choose whether or not you’d like to receive emails on a daily, weekly, or monthly basis. This option saves you the time and trouble of rerunning your searches.

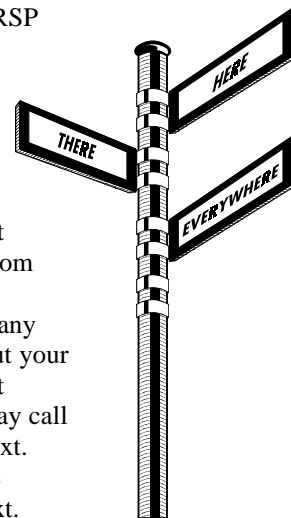

The SPIN Search Page also has a new look that includes several new links for search tips, FAQ’s, deadlines, etc. in addition to a Quick Search format. The SPIN database contains over 11,000 separate funding opportunities and is an excellent source of information for faculty and staff that are in need of research support. Anyone with a wright.edu email address may access the SPIN database from the RSP homepage.

If you have any questions about SPIN or any of the other databases available on our homepage, please call Jackie Frederick at ext. 2664.

## WHERE HAVE ALL THE FUNDING ANNOUNCEMENTS GONE?

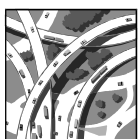

Have you updated the keywords in your faculty interest profile in the RSP database lately? RSP uses these keywords to match your interests with potential funding opportunities. If you haven’t been receiving any announcements about possible funding opportunities from our office, or if the announcements you are receiving no longer match your research interests, it may be time for you to update the keywords in your profile. New keywords are added periodically to the database to keep up with current research interests. To add or update a faculty interest profile online, just go to the RSP homepage and click on the Proposal Preparation link. You can access the faculty interest profile form from this page.

If you have any questions about your faculty interest profile, you may call Jan Power at ext. 2425 or Jackie Frederick at ext. 2664.

# Sponsor Alerts

## NSF FASTLANE CHANGES

FastLane now accepts file uploads in a variety of formats including Word, WordPerfect, PostScript and TeX (MiKTeX 1.20e).

Investigators should continue to use standard fonts to avoid font substitutions when NSF converts the file to Acrobat 3 PDF format. For complete information on supported file formats and corresponding file extensions, you may check the NSF website at <https://www.fastlane.nsf.gov/a1/A1AcceptableFileExtensions.html>. Upon completion of their upload, users will be shown the PDF file resulting from their original file and will need to accept the results before the file is stored in FastLane.

PDF files will continue to be accepted in FastLane if properly created

(e.g. the file is in Acrobat 3 format [PDF Version 1.2], PDFWriter was not used to create the file and that all fonts are embedded). If you are using Acrobat 4 format, be sure to use the FastLane Job Options under the Acrobat Distiller to ensure the file is saved in Acrobat 3 format.

*Reminder: When submitting proposals electronically, it is best to allow additional lead time for any necessary formatting revisions, assigning of passwords, and as a safeguard against any downtime or problems with the Internet.*

If you are having any problems submitting a proposal on the NSF FastLane, you can contact the FastLane User Support at 1-800-673-6188 or an RSP staff member at X2425

## NIH ANNOUNCES NEW SALARY CAPS

The salary limitations for annual compensation paid on grants, cooperative agreements, and contracts with the National Institutes of

Health are being increased for FY 2001 awards as follows:

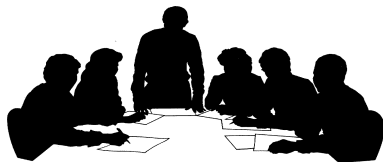

Award Dates	Salary Cap
October 1, 2000 through December 31, 2000	\$157,000
January 1, 2001 and beyond	\$161,200

These figures are based on an individual's institutional base salary which is the annual compensation that the applicant organization pays for an individual's appointment, whether that individual's time is spent on research, teaching, patient care, or other activities.

For awards prior to FY 2001, grantees are allowed to rebudget to accommodate these salary levels if adequate funds are available and if the salary cap increase is consistent with the institutional base salary. However, no additional funds will be awarded by NIH to compensate for increases to salaries for awards prior to FY 2001.

## Proposal Writing Workshop Coming to Campus

The Research Council and RSP are pleased to announce the return of Dr. Robert Lucas, Institute of Scholarly Productivity, to the campus for a special proposal-writing workshop. Dr. Lucas is a nationally known research administrator, teacher and writer whose humorous and informative style makes him one of the most popular speakers in his field today. Dr. Lucas will be sharing his insights about the proposal process, including the following topics:

***How to identify fundable ideas***  
***How to locate likely sponsors***  
***How to draft a concept paper/foundation inquiry letter***  
***How to develop a strong and convincing proposal***  
***How to deal positively with reviewers comments***

The workshop will be held from 8:30 a.m. to 3 p.m. in W169 B&C of the Student Union on April 3, 2001 and will accommodate a maximum of 25 participants. There is no cost to attendees. Faculty new to the campus and the grantwriting arena are encouraged to attend.

Those interested in attending must submit a completed application form, available on the RSP home page at <http://www.wright.edu/rsp/>, click on "Proposal Preparation," and scroll to "Application for Next Workshop." You should email the completed form to [rsp@wright.edu](mailto:rsp@wright.edu).

All applicants must have a Faculty Research Interest Profile on file in RSP to be eligible to attend. Applications are due by Wednesday, March 21, 2001. Your attendance will be confirmed by email. If you have any questions, please contact Jackie Frederick at ext. 2664 or Jan Power at ext. 2425.

# Research Challenge Early Start/Augmentation Awards Announced

The members of the Wright State University Research Council are pleased to announce the Research Challenge Early Start/Augmentation proposals that have been selected for funding. Of 31 applications submitted, 13 projects were funded for over \$220,000. The

primary objective of Research Challenge is to furnish seed funding in order to produce additional sponsored research. Congratulations to the winners from the October 2000 call for applications, who are listed below:

<b>Principal Investigator</b>	<b>Department</b>	<b>Title</b>	<b>Amount</b>
<b>Thomas Brown</b>	Physiology and Biophysics	<i>Effects of Gender in the Development of Autoimmune Disease</i>	20,680
<b>G. Allen Burton</b>	Biological Sciences	<i>Classification of Stream Reference Conditions via Characterization of Flow Regimes and Identification of Natural and Human-related Stressors</i>	30,000
<b>John Gallagher</b>	Computer Science	<i>Improved Telepresence in a WWW Autonomous Robotics Course</i>	5,284
<b>Shumei Guo;</b> W. Cameron Chumlea; Roger Siervogel; Bradford Towne; Puja Khanna; Arthur Pickoff	Community Health     Pediatrics	<i>Childhood Obesity and Adult Cardiovascular Disease Risk</i>	30,000
<b>Craig Harvey</b>	Biomedical and Human Factors Engineering	<i>A Descriptive Model of Collaborative Engineering Awareness</i>	18,750
<b>Helen Klein</b>	Psychology	<i>Supporting Patient Self Management with Human Factors</i>	10,901
<b>Nathan Klingbeil</b>	Mechanical Engineering	<i>Development of Simulation-Based Crack Growth Models Toward "Virtual Life Predication" of Aerospace Materials</i>	12,192
<b>Michael Leffak</b>	Biochemistry and Molecular Biology	<i>The Replication Origin Recognition Protein DUE-B; Elucidation of its Role in DNA Replication</i>	16,600
<b>Kathy McClosky;</b> Kathleen Malloy	School of Professional Psychology	<i>Measurement and Prediction of Domestic Violence Severity</i>	30,000
<b>Dennis Moore</b>	Community Health	<i>The Lack of ATOD and Violence Prevention for Youth with Disabilities; Impact Upon Long-Term Educational and Employment Outcomes</i>	16,250
<b>Ling Rothrock</b>	Biomedical and Human Factors Engineering	<i>Investigation of Adaptation Issues for the Generalization of a Command and Control Training and Experimentation</i>	11,463
<b>Tamera Schneider</b>	Psychology	<i>Mechanisms that Underlie Successful Health Appeals</i>	8,938
<b>J. Mitch Wolff</b>	Mechanical Engineering	<i>Turbine Cooling Flow Investigation</i>	15,000

# AWARDS

The grants and contracts on these pages were awarded from September 2000 through December 2000.

## Overview of the Office of Research and Sponsored Programs

The Office of Research and Sponsored Programs (RSP) works with faculty and staff to increase externally funded research and other sponsored programs. RSP staff provides the following services:

- Identification of External Sources of Funding
- Dissemination of Funding Information
- Liaison with Sponsors
- Proposal Development and Preparation
- Budget Preparation
- Institutional Compliance
- Institutional Authorization
- Proposal Transmittal
- Contract Negotiations
- Post-Award Administration of Externally Funded Programs

- Administration of Internally Funded Programs
- Technology Transfer
- Government Security

*Research News* and *Funding Update* are publications of RSP. *Research News*, published periodically during the academic year, covers grant awards and related topics of interest. Descriptions and deadlines of upcoming programs are listed in RSP's electronic publication, *Funding Update*, available at <http://www.wright.edu/rsp/>.

If you would like to be placed on the mailing list or would like further information on funding opportunities, application procedures, or other services provided by the office, please contact us (ext. 2425, [rsp@wright.edu](mailto:rsp@wright.edu)) or visit the office in 201J University Hall.
