Using the Video Projector

1. **TURN ON VIDEO PROJECTOR.** Turn off when finished.
   a. **Note:** Input source buttons WILL NOT work until the "ON" button stops flashing.

2. **VOLUME CONTROL**

3. **SELECT THE INPUT SOURCE BUTTON FOR THE APPROPRIATE FUNCTION.**
   - **Note:** Not all options are available in every classroom. Buttons are not necessarily in the order that appears below. You may have to press different buttons to see the display source you’re looking for.
   - **PC** – Press the “PC” button to use. Displays image from the main instructor station computer. See the “Computer” tab for more information.
   - **Video** – Press the “Video” button to use. This button displays either the DVD player, or the Document Camera if a “Doc Cam” button is not present.
   - **Laptop** – Press the “Laptop” button to use. Displays images from a connected laptop. See the “Laptop” tab for further information on how to connect a laptop.
   - **Doc Cam** – Press the "Doc Cam" button to use. Displays image from the document camera. See the “Document Camera” tab for more information.
   - **Mute** – Removes projected image from screen (Does not turn off projector).
     - Button blinks when activated; press again to deactivate.
