iOS Devices: Connecting to WSU-Secure Wireless Network

This guide will show you how to use your iOS device to connect and authenticate to the WSU-Secure wireless network connection. If you would like further assistance with connecting your device, contact the CaTS Help Desk at (937) 775-4827.

Connection Instructions

1. Select "WSU-Secure" from your list of available networks/connections.

2. Enter your campus "w" username in the **Username** field, and your password in the **Password** field.

3. Tap **Join**.

4. If prompted, tap **Accept** on the Certificate screen to accept the authctrl.wright.edu certificate.

5. You should now be able to use the wireless network.
