### Application Requirements for International Graduate Students

#### Social and Applied Economics (Master of Science)

#### College
Raj Soin College of Business

#### Program Description
The Department of Economics offers a professionally oriented graduate program that leads to a Master of Science in Social and Applied Economics. This program is designed to develop professional economists who can solve contemporary economic problems with a unique set of skills created by a curriculum that combines applied economics with social economics. In doing so, the program bridges the gap between research and the application of research for use in a wide variety of business and government professions. Students are encouraged to develop and evaluate new approaches to economic problem solving. The curriculum stresses research and field experience, which is complemented by the faculty’s teaching and research emphasis on the interplay of theory and applications.
