Wright Leader Academy
2017-2018

The objective of the Wright Leader Academy at Wright State University is to develop leaders in our campus community and promote a culture of excellence for all supervisory/leadership positions on campus. This cohort-based certificate program is the organization's premier development experience and intended to increase the leader’s capacity to contribute to the mission and goals of Wright State University, increase collaboration among administration and academics, and foster greater organizational engagement among participants. Participants will deepen their understanding of the myriad of functions performed by offices across the University and the challenges faced at Wright State and by higher education in the United States. Participants will be exposed to different leadership philosophies and gain a greater understanding of their individual leadership characteristics. This self-knowledge in addition to a greater understanding of the strategic issues facing the University will prepare participants to be high performing contributors on campus.

The program consists of one full day session per month from August to May and a two hour introductory meeting in August. Participants take the program as a cohort group of approximately 15 individuals.
