Map to Success

Career Journey
Wright State Career Center

Discover Yourself
Discovering your interests, values, personality traits, etc. is the foundation for this journey.

Find a Route
Explore information on majors and careers to find a fit. Get involved on Campus with groups, activities, or student employment to develop skills.

Take a Test Drive
Continue on by going into the real-world environment of careers that fit; informational interviews, job shadow, coursework, internships/co-ops, volunteer work, etc.

Follow your Map
Decide on career options that fit and develop a plan to guide you on the journey.

Re-calculate?
The Career Journey is not always a linear or forward path. At anytime you can make changes and create a new map.
