

# *2000 - 2001 Delaware Study*

National Study of Instructional Costs and Productivity

## Comparison of Wright State University to the Doctoral II Institutions

The following tables compare Wright State University's main campus data to a peer group of institutions consisting of the Doctoral II schools according to the Carnegie Classification of Institutions of Higher Education. The following institutions are included in the peer group:

- Baylor University
- Clarkson University
- Cleveland State University
- DePaul University
- East Carolina University
- Florida International University
- Indiana State University
- Louisiana Tech University
- North Dakota State University
- Portland State University
- University of Central Florida
- University of Colorado - Denver
- University of Louisiana - Lafayette
- University of Maine
- University of Maryland - Balt. County
- University of Missouri - St. Louis
- University of Montana - Missoula
- University of New Hampshire
- University of New Orleans
- University of South Dakota
- Wichita State University
- Wright State University

## **General Information**

### Departmental CIP Codes Listed by WSU College

- The following tables are grouped by WSU's colleges and listed by department with the corresponding peer norm data.
- Each department has been assigned a CIP code that relates to the discipline and subject matter taught within the department.
- A few departments are listed under the same general CIP code.
- The corresponding peer norm data is listed by CIP code.

## Comparison of Student FTE per Faculty FTE

The following tables compare Fall 2000 WSU's **Student FTE** per **Faculty FTE** to the Doctoral II Peer Norms.

For each college the Student FTE per Faculty FTE data is divided into three sections:

- Undergraduate Student FTE per Faculty FTE
- Graduate Student FTE per Faculty FTE
- Total Student FTE per Faculty FTE

For each section the Faculty FTE divisor *remains the same* according to type of faculty.

The **Faculty FTE\*** is presented according to faculty type:

- Tenure and Tenured-Track Faculty:  
Full Professors, Associate Professors, and Assistant Professors.
- Other Regular Faculty:  
Non-Tenure Track, Full-Time Instructors and Lectures.
- Supplemental Faculty:  
Adjunct faculty and staff who teach but whose primary job responsibility is not teaching.
- All Faculty:  
Includes all of the above and the Teaching Assistants.

Student credit hours (which are converted into **Student FTE\*\***) are linked to the department by the funding unit of the faculty of record for the course. In other words, the department that pays the faculty teaching the course receives the student credit hours.

For courses that are co-taught the student credit hours are prorated according to faculty type or department, if necessary.

**Note:** In the *Academic Data Series* the student credit hours follow the department that lists the course (i.e. the course prefix), which is in contrast to the Delaware Study method which follows the funding unit of the faculty of record.

\* Part-time Faculty FTE is calculated by dividing the number of course credit hours taught by 12.

\*\* Student FTE is calculated by dividing the number of undergraduate student credit hours by 15, and graduate student credit hours by 9.

## Direct Instructional Expense per Total Student FTE

The data collected for this portion of the study includes financial information for the Fiscal Year 2000-01, and student credit hour data for the Academic Year 2000-01 ( Fall, Winter, Spring terms).

- Direct Instructional Expense includes:
  - 1) *Salaries*: All wages paid to support the instructional function in a given department or program during the fiscal year. This includes faculty, clerical, professionals (e.g., lab technicians), graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid from the department's instructional budget.
  - 2) *Benefits*: Expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry.
  - 3) *Other Than Personnel Costs*: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of a department or program's cost of doing business. Excluded from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.
- Total Student FTE is calculated by the following:
  - Undergraduate Student Credit Hours divided by 45.
  - Graduate Student Credit Hours divided by 27.

Note: The *Academic Data Series* includes expenses such fee waivers and data processing charges, whereas the *Delaware Study* excludes these types of expenses.

## College Averages and Peer Norm Averages

- WSU's departmental CIP code data is compared to the corresponding CIP peer norm data. This is shown as a "**% of the Peer Norm.**"
- College averages of Student FTE per Faculty FTE are indicated for each faculty category and by level of Student FTE. Corresponding peer norm averages are also indicated. Both **College Averages** and **Peer Norm Averages** are weighted.
- There are several instances in which there is no corresponding peer norm data for a particular WSU department/CIP code. This occurs because the peer analysis included CIP codes when at least five institutions reported data for that particular CIP code. CIP codes that had less than five institutions reporting data were not included in the peer analysis.
- When WSU department/CIP code does not have corresponding peer norm data the WSU department/CIP code data is not included in the College average which is indicated by \*\*\*.
- There are a few instances in which there is no WSU department/CIP code data for a particular type of faculty or level of Student FTE. In these cases the corresponding peer norm data is not included in the peer norm average which is also indicated by \*\*\*.
- There are some instances when WSU's department/CIP code data was identified as an outlier<sup>⌘</sup> in the peer analysis. In these cases the data is shown, but it is not included in the College average. This is indicated by a \* next to the data point. When this occurs the corresponding peer norm is also removed from the peer norm average calculation and it is indicated by \*\*.

⌘ Refined means were used in the peer analysis. After the means and standard deviations were calculated, the outliers were identified and removed. The refined mean was then calculated without the outliers.

## Comparison of Wright State University to Doctoral II Institutions Peer Norms

This report compares WSU to the peer norms according to the following method:

- 1) Every WSU department's CIP code data is compared to the corresponding CIP peer norm data. This is shown as a **"% of the Peer Norm."**
- 2) For every college the overall average of all the departments within the college is calculated as a weighted average. The weighted average is also calculated for all the corresponding peer norms. The college's overall weighted average is compared to the overall peer norm weighted average and this is shown a percentage.

Student FTE per Faculty FTE

*Comparison of WSU Departments to Peer CIP Norms*
