

## ***Wright State University***

2005-06 Delaware Study- National Study of Instructional Costs and Productivity

### **Comparison of Wright State University to the Research Institutions - High Research Activity (RH)**

The following tables compare Wright State University's main campus data to a peer group of institutions consisting of the RH Institutions according to the Carnegie Classification of Institutions of Higher Education. The following institutions are included in the peer group:

- Baylor University
- Bowling Green State University
- Catholic University of America
- Clarkson University
- Clemson University
- Florida International University
- Georgia State University
- Kent State University
- Loyola University of Chicago
- Marquette University
- Mississippi State University
- North Carolina A&T State University
- Northeastern University
- Northern Arizona University
- Northern Illinois University
- SUNY - Binghamton University
- Temple University
- The University of Montana
- University of Alabama - Huntsville
- University of Alabama - Tuscaloosa
- University of Arkansas - Fayetteville
- University of Central Florida
- University of Idaho
- University of Louisiana - Lafayette
- University of Louisville
- University of Maine
- University of Memphis
- University of Mississippi
- University of Missouri - Kansas City
- University of Missouri - Rolla
- University of Missouri - St. Louis
- University of New Hampshire
- University of North Carolina - Greensboro
- University of North Texas
- University of Oregon
- University of Toledo
- West Virginia University
- Wichita State University
- Wright State University

### **Departmental CIP Codes Listed by WSU College**

- The following tables are grouped by WSU's colleges and listed by department with the corresponding peer norm data.
- Each department has been assigned a CIP code that relates to the discipline and subject matter taught within the department.
- A few departments are listed under the same general CIP code.
- The corresponding peer norm data is listed by CIP code.

## *Wright State University*

2005-2006 Delaware Study - National Study of Costs and Productivity

### **Comparison of Student FTE per Faculty FTE**

The following tables compare Fall 2005 WSU's **Student FTE per Faculty FTE** to the Research Institution Peer Norms.

For each college the Student FTE per Faculty FTE data is divided into three sections:

- Undergraduate Student FTE per Faculty FTE
- Graduate Student FTE per Faculty FTE
- Total Student FTE per Faculty FTE

For each section the Faculty FTE divisor *remains the same* according to type of faculty.

The **Faculty FTE** is presented according to faculty type:

- Tenure and Tenured-Track Faculty:  
Includes Full Professors, Associate Professors, and Assistant Professors. Department Chairs are included in this section.  
The FTE for faculty with split appointments is prorated among departments as listed in RAPS. Matrix department faculty FTE is prorated between the College of Science & Math and the School of Medicine. The School of Medicine is not included in this study.
- Other Regular Faculty:  
Includes Non-Tenure Track Instructors and Lectures. The FTE for faculty with split appointments is prorated among departments as listed in RAPS.
- Supplemental Faculty:  
Includes adjunct faculty and any non-faculty who taught Fall term, but whose primary job responsibility is not teaching. Deans are included in this section. Supplemental Faculty FTE is calculated by dividing the number of course credit hours taught by twelve (12 CCH = 1 FTE).
- All Faculty:  
Includes the FTE from the above categories *plus* the Teaching Assistant FTE. The Teaching Assistant FTE is calculated based on headcount of every Teaching Assistant that taught Fall term (1 headcount = .33 FTE).

Student credit hours (which are converted into **Student FTE\*\***) are linked to the department by the funding unit of the faculty of record

for the course. In other words, the department that pays the faculty teaching the course receives the student credit hours.

For courses that are co-taught the student credit hours are prorated according to faculty type or department, as needed.

**Note:** In the *Academic Data Series* the student credit hours follow the department that lists the course (i.e. the course prefix), which is in contrast to the Delaware Study methodology in which the student credit hours follow the funding unit of the faculty of record for the course.

\*\* Student FTE for the fall term is calculated by dividing the number of undergraduate student credit hours by 15, and graduate student credit hours by 9.

## *Wright State University*

2005-2006 Delaware Study - National Costs and Productivity

### **Direct Instructional Expense per Total Student FTE**

The data collected for this portion of the study refers to financial information for the Fiscal Year 2005-06, and student credit hour data for the Academic Year 2005-06 ( Fall, Winter, Spring terms).

- Direct Instructional Expense includes:
  - 1) *Salaries*: All wages paid to support the instructional function in a given department or program during the fiscal year. This includes faculty, clerical, professionals (e.g., lab technicians), graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid from the department's instructional budget.
  - 2) *Benefits*: Expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry.
  - 3) *Other Than Personnel Costs*: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of a department or program's cost of doing business. Excluded from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.
- Student FTE for the academic year is calculated by the following:
  - Undergraduate Student Credit Hours divided by 45.
  - Graduate Student Credit Hours divided by 27.

Note: The *Academic Data Series* includes expenses such fee waivers and data processing charges, whereas the *Delaware Study* excludes these types of expenses.

## *Wright State University*

2005-2006 Delaware Study - National Study of Costs and Productivity

### **College Averages and Peer Norm Averages**

- WSU's departmental CIP code data is compared to the corresponding CIP peer norm data. This is shown as a "**% of the Peer Norm.**"
- College averages of Student FTE per Faculty FTE are indicated for each faculty category and by level of Student FTE. Corresponding peer norm averages are also indicated. Both **College Averages** and **Peer Norm Averages** are weighted.
- There are several instances in which there is no corresponding peer norm data for a particular WSU department/CIP code. This occurs because the peer analysis included CIP codes when at least five institutions reported data for that particular CIP code. CIP codes that had less than five institutions reporting data were not included in the peer analysis.
- When WSU department/CIP code does not have corresponding peer norm data the WSU department/CIP code data is not included in the College average which is indicated by \*\*\*.
- There are a few instances in which there is no WSU department/CIP code data for a particular type of faculty or level of Student FTE. In these cases the corresponding peer norm data is not included in the peer norm average which is also indicated by \*\*\*.
- There are some instances when WSU's department/CIP code data was identified as an outlier in the peer analysis. In these cases the data is shown, but it is not included in the College average. This is indicated by a \* next to the data point. When this occurs the corresponding peer norm is also removed from the peer norm average calculation and it is indicated by \*\*.

### **Comparison of Wright State University to Research Institutions Peer Norms**

This report compares WSU to the peer norms according to the following method:

- 1) Every WSU department's CIP code data is compared to the corresponding CIP peer norm data. This is shown as a "**% of the Peer Norm.**"
- 2) For every college the overall average of all the departments within the college is calculated as a weighted average. The weighted average is also calculated for all the corresponding peer norms. The college's overall weighted average is compared to the overall peer norm weighted average and this is shown a percentage.

Student FTE per Faculty FTE

*Comparison of WSU Departments to Peer CIP Norms*
