The Future Plans Survey is administered to recent graduates to determine their plans following graduation.

An email survey containing a single multiple-choice question about post-graduation plans was sent to 2,500 students who graduated between winter quarter 2010 and winter quarter 2011. All graduates with baccalaureate degrees were included in the survey. The survey was sent out on March 10, 2011 with a follow-up survey on March 15. When survey results were initially posted to Wright State’s College Portrait (March 17), 184 students had responded. These data will be updated as additional information becomes available. Survey results can be found on the Wright State University College Portrait website: http://www.collegeportraits.org/OH/WSU
