

Using ShareLink

ShareLink is a wireless display method for your laptop. ShareLink replaces traditional laptop cables for connection to the projector. **No laptop cables are available in this room.**

1. Connect to the 'WSU-Secure' wireless network using your campus username and password.
 - a. **Note: ShareLink will not work unless you are connected to 'WSU-Secure' wireless**
 - b. **Note: It is possible for any student in the classroom to connect to ShareLink.**
2. Select 'ShareLink' on the Extron touch panel.
3. The instructions for Share Link will appear on the projection screen:
 - a. Enter the IP address shown on the bottom left into your web browser.
 - b. When prompted, enter the four digit code shown on the bottom right.
4. For assistance in connecting mobile devices and tablets, please see pages 19-32 on the following guide: http://media.extron.com/download/files/userman/68-2687-01_B.pdf
