ARTICULATION AGREEMENT

Graphic Design and Visual Media Program
Wright State University – Lake Campus

and

Interactive Media
Tri-Star Career Compact

Definition:
The Ohio Board of Regents defines articulation as a planned process that allows students to move without hindrance through the education process, including the transition between secondary and post-secondary levels of instruction.

Purpose:
A partnership between Wright State University – Lake Campus—Graphic Design and Visual Media Program and Tri-Star Interactive Media Program has been designed to recognize and to reward those graduates who have acquired the skills for credit in specific introductory courses. Wright State University – Lake Campus will grant credit to graduates who fulfill course requirements agreed to in this document.

Advantages:
✦ The student will be able to complete an associate’s degree in less time.
✦ The student will save money by completing fewer classes.
✦ The student can supplement the degree program with optional courses, if desired.

Criteria:
The total number of courses awarded to a student will be evaluated on an individual basis and may vary. All courses must be reviewed and articulated by the summer of 2012. A high school grade of “B” or better is required before credit can be given.

Process:
⇒ Complete Credit Application form available from Career Center.
⇒ Have guidance counselor or career compact instructor verify successful completion of courses.
⇒ Contact the Admissions Office at Wright State University – Lake Campus for a formal application for admittance.
⇒ Submit paperwork to Lake Campus Registrar at Wright State University – Lake Campus.
⇒ College officials will evaluate work, post credits to the transcript and will notify applicant of status.

## COURSE DESCRIPTIONS

**TOA 241 – Desktop Publishing I**
Business course using a computer graphic design system to produce typeset-quality text and graphics such as newsletters, letterheads, brochures, and manuals.

**IT 201 – Photoshop I**
An introduction to computer imaging and photo manipulation using raster-based Photoshop software. Filters and text will be explored.

**IT 220 – Web Design I**
Introductory course to web authoring and programming using basic HTML authoring tools.

**IT 221 – Web Design II**
Focus on the exploration of additional web design software. Production will move beyond the basics, adding form objects and other enhancements using Adobe Dreamweaver web design software.

**IT 222 – Web Design III**
Construction of a comprehensive web site using various applied techniques and applications utilizing various software packages.
