Chair’s Statement:

The Wright State University Board of Trustees is a public body subject to the Ohio Open Meetings Act. It operates on a fixed agenda available to those attending the meeting. Persons wishing to address the Board in its public session should submit a written request to the Board of Trustees’ office 72 hours in advance of the meeting in order to be placed on the agenda. It is of utmost importance to ensure that all university decisions are free from any real or perceived conflicts of interest. Therefore, please be mindful of all obligations with which you have been charged as a Trustee of Wright State University, and take the steps you deem appropriate to perform
your duties fairly and impartially.

B. Disposition of Previous Minutes

Chair Fecher moved for the approval of the minutes for the Finance, Audit, Governance, and Compliance meeting on December 9, 2021 meeting as submitted. Trustee Fecher moved to approve the minutes as submitted and was seconded by Trustee Platt. Chair Fecher asked if there was discussion on the minutes as distributed. The minutes were unanimously approved by a voice vote.

C. Opening Remarks from the Committee Chair

Chair Fecher invited Mr. Burhan Kawosa to informally discuss the Financial Governance Policy. Mr. Kawosa shared that amendments to the current Financial Governance Policy would be forthcoming at the next meeting.

Chair Fecher discussed the policy that helps define how the University makes the financial decisions and when the Board should be involved. It allows for Board oversight and an awareness of University operations.

II. REPORTS ON UNIVERSITY OPERATIONS

A. Remarks from the Chief Operating Officer

Mr. Greg Sample shared that during the FY22 cycle, departments could spend 95% of their allocated budget to avoid a draw from university reserves. Because of this, the University is projecting a $10 million operating surplus for FY22 as opposed to the projected $10 million operating deficit. Mr. Sample indicated higher international student enrollment and the University’s dedication to fiscal responsibility can be attributed to the operational surplus.

B. Finance and Investment Reports

Ms. Summer Todd indicated enrollment exceeded projections which accounted for a 7% increase in projected revenue. Revenues, however, were projected to be $10 million less than FY21.

Mr. Don Borowy shared the University’s liquid investments had increased, a standard trend for the current market. Mr. Borowy shared the University’s current cash on hand was $260 million, but was projected to be $204 million by the end of the fiscal year.

At the conclusion of the reports, Trustee Platt commended the University and the Finance team for their work achieving the $10 million surplus.

C. Enrollment Management Report

Ms. Susan Schaurer discussed historical context of enrollment management at the University. She indicated the Higher Education sector is competitive and consumer
driven. Students and parents are critical of tuition costs and return on investment. She shared the importance of building an infrastructure that will build organizational components that has a data driven culture. Understanding that this is a consumer driven market, Ms. Schaurer emphasized the need to establish enrollment goals, targets for each college, and share data trends among units.

Ms. Schaurer noted the work to update the University’s website to better highlight the exceptional programs the University offers.

Ms. Kim Everhart, Director of Financial Aid, presented information about the Higher Education Emergency Relief Fund (HEERF). She shared that three laws had passed at the Federal level, giving $24 million in relief funds to Wright State Students. She noted that the FAFSFA is primarily used for eligibility for HEERF Funds.

III. CONTRACTS

We are going to switch around the agenda and present the line items less than $250,000 first then move into expenditures requiring approval.
