Whereas: The University Faculty shall determine the curricula leading to all degrees and certification programs offered by the university and shall determine the content of all courses in such curricula,

And, whereas: the Undergraduate Curriculum Review Committee (UCRC) is the body within the Faculty Senate charged with oversight of all academic review activities related to undergraduate programs and courses,

And, whereas: Wright State University’s Assurance of Learning Committee (ALC) has the responsibility to provide administrative assessment of student learning outcomes for all university-wide programs,

And, whereas: the ALC will design the assessment process, collect supporting documentation, review these artifacts, transmit assessment results to the programs and provide recommendations for improvement,

Be it resolved that: the UCRC will delegate program assessment to the ALC, but retains authority to access collected artifacts, review results, communicate findings, make recommendations to programs and make changes in the assessment process.
