What Makes A Good Beta

There is no short cut to becoming a good Beta.
Nor is there any short cut to being a good citizen.

Both require recognition of
High standards of conduct,
Of morality, responsibility
And cultivation of the intellect.
Such ideas are not achieved
By osmosis but only by conscious
Development *in* the individual *by* the individual
Not only of acceptable standards,
But of standards that will
Show the way to others.
Our Beta Stars are those which *guide* us,
But only our own character and will
Can move us toward our destination
