3. Your son/daughter is making application for an honor seminars group. This group is composed of the very best science oriented students in the Dayton area. The group will have an opportunity to meet with top scientists and professionals for seminars and discussions. We feel that our young people will profit greatly from these experiences. They are meant to provide enrichment to the student's background, to aid in the development of independent thinking and the stimulation of individual creativity, and to lend assistance in defining career objectives. The group meets 10-12 times each academic semester on Tuesday evenings from 7:00 p.m. to 9:00 p.m.

Because of the nature of the group, its limited number, the planned curriculum, and the seminar leaders, certain demands will be made of the participants. They are:

- a. Regular attendance at weekly (Tuesday evening) meetings is mandatory.
- b. About two hours per week will be required for attendance. (No outside work or assignments are associated with seminars)
- c. Regular school work must not suffer.

If you approve of your son's/daughter's PARTICIPATION under these conditions and willing to make the commitment to the opportunity, please sign here.
