

Human Perception of Multispectral Imagery Workshop

Based on image collected by TNO for AFRL
Distribution A: Approved for public release; distribution unlimited.
88ABW Cleared 11/18/2014; 88ABW-2014-5325

Many researchers in the Dayton area are exploring multi-spectral imagery. The goal of this workshop is to exchange ideas on how multispectral images are created and assessed for use by human observers.

Friday, December 2, 8:30 – 15:00

5000 Springfield St, Dayton 45431

Tec^Edge ICCC
