## Program Description

The Master of Science in Cyber Security is designed for individuals who want to develop skills to identify and resolve Cyber Security threats. The degree is focused developing knowledge and skill applicable to protecting computer systems and computer networks. Program strengths include the unique blend of faculty expertise, the well-equipped computer engineering laboratory facilities, and the balance of theory, practice, hardware, and software.

### TOEFL IBT

- 79

### IELTS

- 6.0

### Person PTE

- 57

### LEAP-4

- Not Applicable

### Degree

- Earned in the USA

### Personal Statement

Students must have a bachelor's degree in Computer Science, Computer Engineering, Electrical Engineering, Information Systems or a related technical area from a regionally accredited academic institution.

### Essay

Course requirements or work experience (check program website).

### Undergraduate Background Requirements

- Students must have a bachelor's degree in Computer Science, Computer Engineering, Electrical Engineering, Information Systems or a related technical area from a regionally accredited academic institution.

### Other Requirements

- Course requirements or work experience (check program website).

## Notes

- Official transcripts from all colleges/universities attended (other than Wright State) and degrees are required for most programs. Financial Statement is required for I-20 processing. Proof of English Proficiency is required from all international students.
