Welcome to Wright State University Sport Clubs

In effort to provide the best and most appropriate medical care to the student-athletes, the Department of Athletics and Campus Recreation requires all club athletes to have all forms completed prior to participation. Our high risk clubs* require a yearly pre-participation physical exam. With the information included in this packet, the Athletic Trainers and Team Physicians will be able to provide better care for each athlete.

All of the following items must be completed and turned in prior to participating in the sport club of your choice. Failure to do so will result in an incomplete sports medicine packet and the student-athlete will NOT be permitted to participate in his or her sport.

Each athlete should sign and complete each of the following:

- Form A, B, C, D, E*
  Form E may be replaced by a club specific pre-approved code of conduct

If you have any questions or concerns, please contact us.

Please submit the forms to:

WHAT IS A CONCUSSION?
A concussion is a brain injury that:
• Is caused by a blow to the head or body.
  – From contact with another player, hitting a hard surface such
    as the ground, ice or floor, or being hit by a piece of equipment
    such as a bat, lacrosse stick or field hockey ball.
• Can change the way your brain normally works.
• Can range from mild to severe.
• Presents itself differently for each athlete.
• Can occur during practice or competition in ANY sport.
• Can happen even if you do not lose consciousness.

HOW CAN I PREVENT A CONCUSSION?
Basic steps you can take to protect yourself from concussion:
• Do not initiate contact with your head or helmet. You can still get
  a concussion if you are wearing a helmet.
• Avoid striking an opponent in the head. Undercutting, flying
  elbows, stepping on a head, checking an unprotected opponent,
  and sticks to the head all cause concussions.
• Follow your athletics department’s rules for safety and the rules of
  the sport.
• Practice good sportsmanship at all times.
• Practice and perfect the skills of the sport.

WHAT ARE THE SYMPTOMS OF A CONCUSSION?
You can’t see a concussion, but you might notice some of the symptoms
right away. Other symptoms can show up hours or days after the injury.
Concussion symptoms include:
• Amnesia.
• Confusion.
• Headache.
• Loss of consciousness.
• Balance problems or dizziness.
• Double or fuzzy vision.
• Sensitivity to light or noise.
• Nausea (feeling that you might vomit).
• Feeling sluggish, foggy or groggy.
• Feeling unusually irritable.
• Concentration or memory problems (forgetting game plays, facts,
  meeting times).
• Slowed reaction time.

Exercise or activities that involve a lot of concentration, such as
studying, working on the computer, or playing video games may cause
concussion symptoms (such as headache or tiredness) to reappear or
get worse.

WHAT SHOULD I DO IF I THINK I HAVE A CONCUSSION?
Don’t hide it. Tell your athletic trainer and coach. Never ignore a blow to the head. Also,
tell your athletic trainer and coach if one of your teammates might have a concussion.
Sports have injury timeouts and player substitutions so that you can get checked out.

Report it. Do not return to participation in a game, practice or other activity with
symptoms. The sooner you get checked out, the sooner you may be able to return to play.

Get checked out. Your team physician, athletic trainer, or health care professional
can tell you if you have had a concussion and when you are cleared to return to play.
A concussion can affect your ability to perform everyday activities, your reaction time,
balance, sleep and classroom performance.

Take time to recover. If you have had a concussion, your brain needs time to heal. While
your brain is still healing, you are much more likely to have a repeat concussion. In rare
cases, repeat concussions can cause permanent brain damage, and even death. Severe
brain injury can change your whole life.

IT’S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON.
WHEN IN DOUBT, GET CHECKED OUT.

Student-Athlete Concussion Acknowledgement Statement

I understand that it is my responsibility to report all injuries and illnesses to my athletic trainer, Assistant Director for Competitive Sports, Team Coach and/or team physician.

I have read and understand the NCAA Concussion Fact Sheet.

After reading the NCAA Concussion fact sheet, I am aware of the following information (Initial each bullet to denote understanding):

A concussion is a brain injury, which I am responsible for reporting to my team physician or athletic trainer.

A concussion can affect my ability to perform everyday activities, and affect reaction time, balance, and sleep and classroom performance.

You cannot see a concussion, but you might notice some of the symptoms right away. Other symptoms can show up hours or days after the injury.

If I suspect a teammate has a concussion, I am responsible for reporting the injury to my team physician or athletic trainer.

I will not return to play in a game or practice if I have received a blow to the head or body that results in concussion-related symptoms.

Following concussion the brain needs time to heal. You are much more likely Initial to have a repeat concussion if you return to play before your symptoms resolve.

In rare cases, repeat concussions can cause permanent brain damage, and Initial even death.
