VPN Not Required!
Cayuse Home

- Assign tasks to yourself and research team
- Does not connect with individual products but will show up on this home task page and individuals assigned will receive e-mail notification to complete task.
To Add a CV
- Click My Profile
- Click Documents
- Select CV
- Click the Upload button

To add Annual COI:
- Click My Profile
- Click COI Disclosures
- Click +New Disclosure
- Select Research Based
- Note: Annual only completed in January
Submissions Tab

- Can filter and sort

Note about Assignment:

- Four Roles:
  - Principal Investigator
  - Primary Contact
  - Co-Principal Investigator
  - Investigator
  - View Only Access

Each application will specify exact role in that study. It will not be reflected here.
## Studies Tab

The Studies Tab in the Cayuse Human Ethics system allows users to manage and view studies. The table below shows a sample of studies with their details:

<table>
<thead>
<tr>
<th>IBB</th>

Study Details

PDF Button:
- Converts Application to PDF. Does not include attachments.

Letters Tab:
- If there are letters associated with the study, a letters tab will appear next to the attachment tab.
Submission Types

When you first create a study, you also create the initial submission outlining the purpose of that study. In addition to this initial submission, there are five other types of submissions that IRB Users may submit during the course of your research. The available submission types include:

- **Initial** - This is the first submission that you create when you enter a new study in the system. The initial submission describes the research you intend to do and the methodology you intend to use. The initial submission must be approved before any research can begin.

- **Modification** - If you wish to change any of the details of the study after it has been approved, you must submit a modification which must be approved before you can proceed with the changes.

- **Renewal** - When a study is nearing its expiration date, you must submit a renewal request in order to continue with the research. The renewal will need to be approved before you can continue with the study.

- **Incident** - You must submit an incident report to inform the Compliance Office of any adverse incidents, as required by your institution. Incident reports may be submitted at any time after a study has been approved, including after it has been closed. More than one incident report may be created for a given study, as needed.

- **Withdrawal** - A withdrawal submission notifies the Compliance Office that you no longer wish to submit your initial submission and want to withdraw the study. Withdrawn studies are marked as finalized and can no longer be modified. You may create a withdrawal submission at any point once an initial submission has been created, even if it has been approved. If the initial submission has been approved, you must create a closure submission in order to close the study if you no longer wish to conduct the research.

- **Closure** - A closure submission indicates that the research is complete and will not be continuing. Closed studies are marked as finalized and can no longer be modified.

- **Legacy** - Used for studies imported from previous systems. The legacy submission replaces the initial submission for imported studies. Once the legacy submission is finalized, you can create additional submissions such as modifications, renewals, etc. An IRB Analyst must create and publish a legacy template before users can create legacy submissions or work with studies that have been imported from other systems.

There are two additional submission types that are only available to IRB Analysts and Admins:

- **Admin Closure** - Allows a study to be administratively closed when needed, for example when the PI leaves the institution or chooses to let a study expire.

- **Admin Withdrawal** - Allows a study to be administratively withdrawn when needed, for example when the PI leaves the institution.
