Deadline:

Guidelines

- Provide an accurate assessment of the applicant's suitability for medical school rather than advocate for the applicant.
- 2. Briefly explain your relationship with the applicant:
- how long you have known the applicant;
- in what capacity you have interacted (e.g., faculty, pre-medical advisor, supervisor, etc.); and
- whether you are writing based on direct or indirect observations.
- Quality is more important than letter length. Focus
 on the applicant rather than details about the lab,
 course, assignment, job or institution.
- 4. Only include information on grades, GPA or MCAT scores if you are providing context to help interpret them. Grades, GPA, and MCAT scores are available within the application.
- Focus on behaviors that you have observed directly when describing applicants' suitability for medical school. Consider describing:
- The situation or context of the behavior
- The actual behavior(s) you observed
- Any consequences of that behavior
- Admissions committees find comparison information helpful. If you make comparisons, be sure to provide context. Include information about:

ė.

- the comparison group (e.g., students in a class you taught, students in your department, co-workers, etc.)
- your rationale for the final comparison

A.) Unique Contributions to the incoming Class

Key Areas of Interest

- Describe obstacles that the applicant had to overcome, and if applicable, how those obstacles led to new learning and growth
- Explain how the applicant may contribute to a medical school's diversity, broadly defined (e.g., background, attributes, experiences, etc.)

Note: If you write about any information that could be considered potentially sensitive, confirm with the applicant that she is comfortable with the inclusion of that information.

B.) Core, Entry-level Competencles

Describe how the applicant has, or has not, demonstrated any of the following competencies that are necessary for success in medical school.

Thinking & Reasoning Competencies

Critical Thinking: Uses logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions, or approaches to problems

Quantitative Reasoning: Applies quantitative reasoning and appropriate mathematics to describe or explain phenomena in the natural world

Scientific Inquiry: Applies knowledge of the scientific process to integrate and synthesize information, solve problems and formulate research questions and hypotheses; is facile in the language of the sciences and uses it to participate in the discourse of science and explain how scientific knowledge is discovered and validated

Written Communication: Effectively conveying information to others using written words and sentences

Science Competencies

Living Systems: Applies knowledge and skill in the natural sciences to solve problems related to molecular and macro systems

Human Behavior: Applies knowledge of the self, others, and social systems to solve problems related to the psychological, social, and biological factors that influence health and well-being

Interpersonal Competencies

Service Orientation: Demonstrates a desire to help others and sensitivity to others' needs and feelings; demonstrates a desire to alleviate others' distress; recognizes and acts on his/ her responsibilities to society, locally, nationally, and globally

Social Skills: Demonstrates awareness of others' needs, goals, feelings, and the ways social and behavioral cues affect peoples' interactions and behaviors; adjusts behaviors appropriately in response to these cues; and treats others with respect

Cultural Competence: Demonstrates knowledge of social and cultural factors that affect interactions and behaviors; shows an appreciation and respect for multiple dimensions of diversity; recognizes and acts on the obligation to inform one's own judgment; engages diverse and competing perspectives as a resource for learning, citizenship, and work; recognizes and appropriately addresses bias in themselves and others; interacts effectively with people from diverse backgrounds

Teamwork: Works collaboratively with others to achieve shared goals; shares information & knowledge with others and provides feedback; puts team goals ahead of individual goals

Oral Communication: Effectively conveys information to others using spoken words and sentences; listens effectively; recognizes potential communication barriers and adjusts approach or clarifies information as needed

Intrapersonal Competencies

Ethical Responsibility to Self and Others: Behaves in an honest and ethical manner; cultivates personal and academic integrity; adheres to ethical principles and follows rules and procedures; resists peer pressure to engage in unethical behavior and encourages others to behave in honest and ethical ways; and develops and demonstrates ethical and moral reasoning

Reliability and Dependability: Consistently fulfills obligations in a timely and satisfactory manner; takes responsibility for personal actions and performance

Resilience and Adaptability: Demonstrates tolerance of stressful or changing environments or situations and adapts effectively to them; is persistent, even under difficult situations; recovers from setbacks

Capacity for Improvement: Sets goals for continuous improvement and for learning new concepts and skills; engages in reflective practice for improvement; solicits and responds appropriately to feedback
