

Discipline-specific criteria for Associate Graduate Faculty Membership

Criteria required for Teaching ANT 7210, Human Microanatomy (Histology)

The following is a list of criteria required for one to be qualified to teach ANT 7210, Human Microanatomy, in the MS in Anatomy and Certificate in Anatomy programs in the Department of Neuroscience, Cell Biology and Physiology.

1. An earned M.S. in Anatomy, Cell Biology, or related discipline.
2. Successful completion of a minimum of 6 credit hours of graduate Microanatomy/Histology or related coursework to demonstrate proficiency in histology at the highest level. The required amount of graduate histology/microanatomy coursework should equal or exceed the amount of graduate histology/microanatomy coursework in Ph.D. in Anatomy or Ph.D. in Cell Biology and Anatomy programs.
3. A minimum of two semesters of documented experience in teaching human microanatomy/histology courses, preferably at the graduate or medical student level.
