Title IX Coordinator and Administrator Four: Advocacy, Prevention, and Trauma

Training & Certification Course

Strategic Risk
Management Solutions

Any advice or opinion provided during this training, either privately or to the entire group, is never to be construed as legal advice. Always consult with your legal counsel to ensure you are receiving advice that considers existing case law, any applicable state or local laws, and evolving federal guidance.

CONTENT ADVISORY

The content and discussion in this course will necessarily engage with sex- and gender-based harassment, discrimination, and violence and associated sensitive topics that can evoke strong emotional responses.

ATIXA faculty members may offer examples that emulate the language and vocabulary that Title IX practitioners may encounter in their roles including slang, profanity, and other graphic or offensive language.

AGENDA

- 1 Climate Surveys
- 2 Prevention Methodologies
- 3 Prevention: The 8 Cs
- 4 VAWA Section 304 Prevention Programming
- 5 Specific Programs, Strategies, and Initiatives
- 6 Presentation Skills

Victim Advocacy

TITLE IX NOTICES OF PROPOSED RULEMAKING 2022 & 2023

TITLE IX REGULATIONS

- **1972:** Congress passed Title IX of the Education Amendments
- **1980:** the Department of Education's Office for Civil Rights (OCR) given primary responsibility for enforcing Title IX
- **November 2018:** OCR proposed the most detailed and comprehensive Title IX regulations to date, which focused on sexual harassment response
- **August 2020:** Significantly amended, due-process oriented Regulations took effect (proposed in Nov. 2018)
- **June 2022:** OCR published a Notice of Proposed Rule Making (NPRM) outlining proposed changes to the Title IX regulations focused on sexual harassment response and pregnancy and related conditions

NPRM PROCESS TIMELINE

- **July 2022:** NPRM published in the Federal Register and the 60-day public comment period began
- **September 2022:** Review and comment period ended
 - Received 240,000+ comments
- **April 2023:** OCR published a separate NPRM outlining proposed changes to the Title IX regulations focused on gender identity and athletic participation; 30-day public comment period
 - Received 150,000+ comments
- **October 2023:** Anticipated publication of both the sexual harassment and athletics Title IX Final Rules
- **OCR has not yet announced an implementation deadline or timeline for either set of new regulations.**

PREPARING FOR IMPLEMENTATION

- Continue to fulfill obligations under the current regulations for the start of the 2023-2024 academic year.

Steps to Take Now:

- Educate yourself on the proposed regulations
- Prepare to educate your community on the changes
- Identify stakeholders that will need to be involved in making policy decisions (e.g., whether to have hearings)
- Determine how you will manage policy changes
- Plan for the training needs for your community
- Consider state laws, court decisions, and other regulations that may affect your institutional approach

DIKW PYRAMID

Information

The analysis of the data into understandable information and trends.

Knowledge

What this data means for the field and your institution or district.

Wisdom

Your team makes decisions about how to apply the knowledge and make changes that are best for you.

CLIMATE SURVEYS

Defining Climate Surveys

10-20 minute survey that participants complete to share their perspective with those conducting the research.

Purpose of Climate Survey

Climate surveys are designed to better understand the community's experience with sexual assault, stalking, and IPV.

Opportunity

Climate surveys should be seen as something we *get to do* not something we fear.

Use of Data

Climate survey results shed light on areas that need improvement and allow for informed decision making.

CLIMATE SURVEY PARTICIPANTS

- Each survey group would have slightly different questions useful to assess the particular group's experience with sexual assault, stalking, and IPV.
- For example, faculty or teacher surveys could better assess how they feel about sharing information with the Title IX office as mandatory reporters.

CLIMATE SURVEY PROCESS

ONLINE SURVEY TOOL FOR CAMPUS SAFETY

- As required by the 2022 VAWA Reauthorization, the Secretary of Education shall develop, design, and make available through a secure and accessible online portal, a **standardized online survey tool** regarding **postsecondary student** experiences with domestic violence, dating violence, sexual assault, sexual harassment, and stalking.
- The survey tool shall be fair and unbiased, be scientifically valid and reliable, meet the highest standards of survey research, and notify the participant that anonymized results of the survey may be published.
- The survey must be accessible for individuals with disabilities.

ONLINE SURVEY TOOL FOR CAMPUS SAFETY (CONT.)

- Questions shall be designed to gather information on **student** experiences with domestic violence, **dating violence, sexual assault, sexual harassment, and stalking**, including the experiences of victims of such incidents.
- Questions will include:
 - optional demographic information
 - incidence and prevalence of domestic violence, dating violence, sexual assault, **sexual harassment**, and stalking
 - students' awareness of related institutional policies and procedures

ONLINE SURVEY TOOL FOR CAMPUS SAFETY (CONT.)

- what response was received, what actions were taken, and the outcome of the matter if a victim reported an incident to different entities
- contextual factors, such as whether force, incapacitation, or coercion was involved
- institutional affiliation of the Respondent, if any
- whether a victim reported an incident to Federal, State, local, Tribal, or campus law enforcement
- the impact of domestic violence, dating violence, sexual assault, sexual harassment, and stalking on the victim's education
- the impact and effectiveness of prevention and awareness programs and complaints processes

ONLINE SURVEY TOOL FOR CAMPUS SAFETY (CONT.)

- attitudes toward sexual violence and harassment, including the willingness of individuals to intervene as a bystander
- other questions, as determined by the Secretary of Education
- An institution of higher education may request, at no cost to the institution, to add additional questions that would increase the understanding of the institution climate factors unique to the campuses affiliated with the institution.

ONLINE SURVEY TOOL FOR CAMPUS SAFETY (CONT.)

- Beginning not later than **one year** after the date on which the survey tool is available, and **every two years** thereafter, each institution higher education that receives Federal educational assistance shall administer the survey
- Each institution shall publish, in a manner that is readily accessible and usable by individuals, including individuals with disabilities—
 - the campus-level results of the standardized elements of the survey
 - the campus-level results of the additional elements modifying the survey by the institution, if any, on the website of the institution

DEVELOPMENT – ADDITIONAL QUESTIONS OR TOOLS

- Institutions should consider whether and how often employees should be surveyed, as well as whether additional questions should be added to the government-developed survey tool
- It's imperative to not rush this part of the process to get to good results.
- Institutions have many options when it comes to the development of additional or supplemental survey tools:
 - Look to government examples
 - Create a homegrown survey with support from those with research experience within the institution
 - Work with a third-party company like TNG, ATIXA's management organization

DEVELOPMENT – ADDITIONAL QUESTIONS OR TOOLS (CONT.)

- Surveys can be designed in a variety of ways. Generally, it is advisable to follow these guidelines:
 - Keep it a reasonable length; otherwise, people won't take the time to complete it or won't give accurate answers to complicated questions.
 - Design the survey with a focus on how the results will be reported. Write questions to fill in the report.
 - Use a mixed model design to capture both qualitative and quantitative data.

DEMOGRAPHIC QUESTIONS

- The first step in the development of a climate survey is understanding who is participating in the survey.
- Demographic questions provide the ability to break down results into additional categories for analysis and comparisons.
- However, demographic questions cannot be added retroactively. So, make sure to create the questions in the survey before moving from development to implementation.

IMPLEMENTATION

- The challenge is getting the survey in the hands of the population being assessed.
- Ways to survey:
 - Waiting rooms or lobbies
 - Orientation events
 - Sports practices or club/organization meetings
 - Homerooms
- Types of surveys:
 - Online with internal survey tools or Survey Monkey
 - Pen and paper
 - Tablet/laptop based

IMPLEMENTATION (CONT.)

- Develop a plan that involves a variety of options to maximize responses.

Problem	Solution
Low response rate	Pick a slower time of the year to survey. Ensure students have enough time and energy to complete. Send reminder emails with three to four opportunities over a month to complete.
Start but don't finish	Some software can track people who start but don't finish. Consider reducing survey length and detail of questions. Are there common problem areas at which people are stopping?
Low online response	Find times when students are in one place like classes/orientations to up the survey response.

SAMPLE SIZE/RESPONSE RATE

Respondents Needed at Error of $\pm 3\%$, $\pm 5\%$, & $\pm 10\%$			
Population	$\pm 3\%$	$\pm 5\%$	$\pm 10\%$
500	345	220	80
1,000	525	285	90
3,000	810	350	100
5,000	910	370	100
10,000	1,000	385	100
100,000	1,100	400	100
1,000,000	1,100	400	100
10,000,000	1,110	400	100

<https://secure.surveymonkey.com/wp-content/uploads/2011/09/Respondents-Needed-Chart1.png>

ANALYSIS

- Make sure the person or group performing the analysis has the experience necessary to do it well.
- That being said, more detailed statistics (e.g., correlative analysis, ANOVA, or advanced design) are often not needed. Simple summary percentages of the response rate can typically provide rich and meaningful data.
- The analysis should provide a story for the data. This story should be easily understood and shed light on areas of further exploration. Overly complicated analysis and data presentation should be avoided.

SAMPLE QUESTIONS

- Employee classification: (e.g., faculty, administrative support, teacher, administrator, cabinet-level)
- Employment status: full-time, part-time
- Age range: 18–20, 21–24, 25–34, 35–44 (may be more helpful to use grades for K-12 students and age ranges for teachers, college students, and faculty/staff)
- Gender: male, female, transgender, intersex, non-binary, other [optional: please list], prefer not to answer
- International student? Athlete? Fraternity or sorority member?

QUESTION RECOMMENDATIONS

- One area of innovation ATIXA has been pushing forward is targeted questions to see how individuals understand the existing sexual assault, harassment, stalking, and intimate partner violence policy.
- This involves a survey question with an embedded link asking first if the individual is familiar with the policy and then asking them more specifics about the policy being fair to the Respondent, the Complainant, and its application to the school.
- Consider asking questions that incorporate other aspects of gender equity (e.g., pregnancy, LGBTQIA+) if appropriate.

QUESTION RECOMMENDATIONS (CONT.)

- Experience and perception questions should make up the bulk of the survey. They are designed to gain a better understanding of the participants' experience with sexual violence. Questions can focus on personal observation, personal experience, and general perception.
- This is an ideal area to ask more open-ended questions (always remembering that these are harder to analyze) to better understand the participants' experience and perception of policy and implementation at the school.

SAMPLE QUESTIONS

- **If I were a victim of gender-based violence, I would feel most comfortable reporting to the following campus or school resources (Check all that apply):**

- Licensed counselor
- Academic Advisor
- Title IX coordinator/
Title IX advocates
- Faculty member or teacher
- University police or SRO
- Resident Advisor (RA)
- Student health staff or
school nurse
- Student affairs
administrator(s)
- Principal/Assistant
Principle
- Housing and residence life
staff
- Academic deans/vice
presidents
- Athletics coach
- Campus ministry staff

SAMPLE QUESTIONS (CONT.)

- Have you ever attended any school programs/trainings that addressed the prevention of gender-based violence (e.g., interactive theater, lectures, classroom talks, orientation programs)?
 - Yes
 - No
- How can the school improve its programming/training pertaining to gender-based violence? (open-ended.)

CLIMATE SURVEY RESULTS

- As mentioned earlier, reports must be readable and practical above all else. There is a temptation to use fancy charts and statistical analysis that may overly complicate the story the report needs to tell.
- Data should shed light on areas to be further explored or addressed. Survey results should provide a roadmap to improve and better existing prevention education.
- Results should not be seen as overly critical; no school does this perfectly, and there is always room for improvement.

CLIMATE SURVEY RESULTS EXAMPLES

- Of those responding, 25% are first-year and sophomore students, 28% juniors, 18% seniors, and 4% graduate and post-graduate students.
- 98% are full-time enrolled students between the age ranges of 18–20 (64%), 21–24 (32%), and 25 and older (4%).
- 70% of the Participants are women.
- 20% of the Participants are student athletes.
- 45% of the Participants are involved in fraternity and sorority life.
- 82% of the Participants are involved in a student organization.
- 16% of the Participants transferred from another institution.

CLIMATE SURVEY RESULTS EXAMPLES (CONT.)

- 60% of responding students feel the college does enough to prevent gender-based violence.
- An additional 22% of participating students were neutral in responding to this question.
- It's likely that students who responded to this question neutrally would respond more favorably if they were more aware of the university's efforts to prevent this type of violence.

CLIMATE SURVEY RESULTS EXAMPLES (CONT.)

- Close to 40% of students are unsure of where to find information about campus resources for victims of gender-based violence, and 46% of students are unfamiliar with the college's bystander policy. Of note, only 37% of students reported that campus resources were covered in gender-based violence programs offered on campus.
Further education to the community would be helpful to reduce the percentage of students who are unaware of campus resources for victims.

CLIMATE SURVEY RESULTS EXAMPLES (CONT.)

- If students in the survey become victims of gender-based violence, they are most likely to report this to the counseling center (70%) or the police (50%). Only 8% said they would report gender-based violence to the Title IX Coordinator. *This is likely another area of education for students, who need to better understand their reporting options. Also, this finding highlights the importance of cultivating a close working relationship among the police department, counseling staff, and the Title IX Coordinator.*

Prevention Methodologies

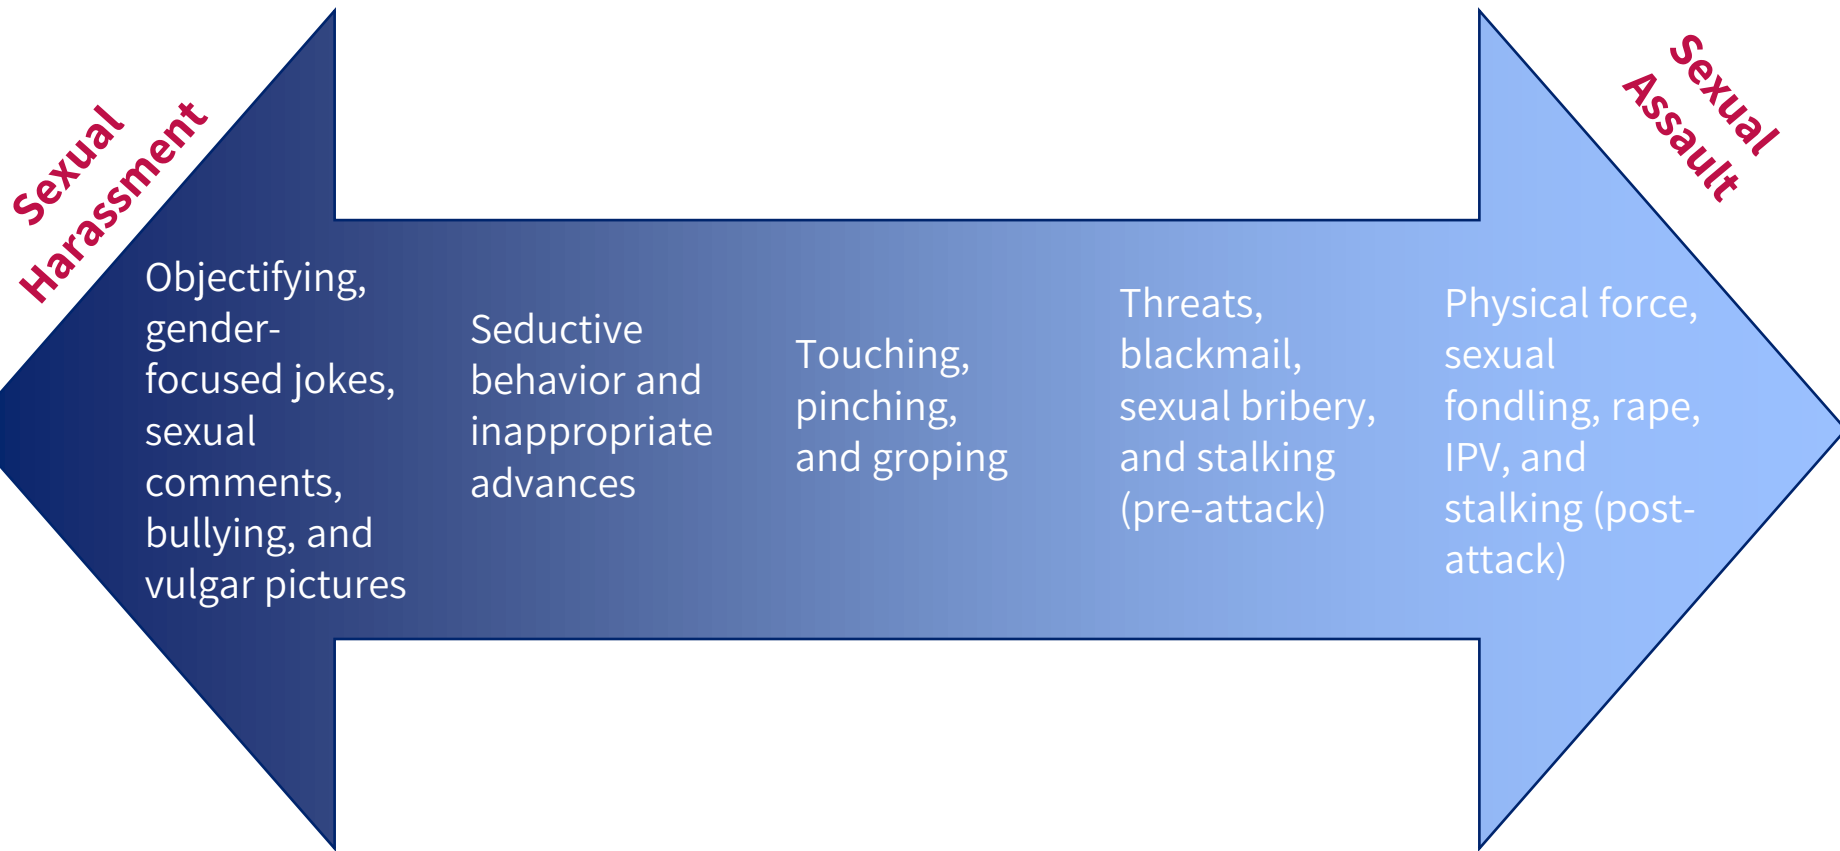

PREVENTION IN PRACTICE

While much time and attention is spent on how to best respond to notice of Sexual Harassment/Stalking/Sexual Violence taking place, we spend too little time exploring how to prevent these behaviors in schools, on campuses, and online.

PREVENTION STARTS WITH RECOGNITION

- The first key to prevention is recognition.
 - Bystander intervention example
- There are many ways that Sexual Harassment/Stalking/Sexual Violence can manifest, but rarely does it do so in isolation.
- The context is one of an entire continuum, including bullying and stalking.
- Let's explore a graphical representation of the concept...

CONTINUUM OF SEXUAL/SEX-BASED DISCRIMINATION

SEXUAL ABUSE CONTINUUM

- Sexist jokes
- Sexual objectification
- Jealousy
- Minimizing partner's feelings and needs regarding sex
- Criticizing partner sexually
- Unwanted touch
- Withholding sex and affection
- Sexual labels like “whore” or “frigid”
- Always demanding sex
- Forcing partner to commit humiliating sexual acts
- Cheating
- Forcing partner to watch sexual acts with others
- Demanding sex with threats
- Forcing sex
- Forcing sex with others
- Forcing uncomfortable sex
- Forcing sex after beatings
- Sadism

PREVENTION METHODOLOGIES

Prevention is...

Integrated across disciplines and therefore collaborative

Holistic and address multiple areas of wellness (physical, emotional, spiritual, intellectual, etc.)

Evidence based and/or able to demonstrate efficacy

Strategic in design and implementation

Multi-targeted, directed at the individual, the community, and the society/environment

LEVELS OF PREVENTION FRAMEWORK

Baumann L.C., Karel A. (2013) Prevention: Primary, Secondary, Tertiary. In: Gellman M.D., Turner J.R. (eds) Encyclopedia of Behavioral Medicine. Springer, New York, NY

LEVELS OF PREVENTION FRAMEWORK (CONT.)

LEVELS OF PREVENTION FRAMEWORK (CONT.)

Primary

- Bystander Intervention
- Programs teaching healthy and respectful relationships
- Risk-reduction programming
- Programs addressing men's role in preventing sexual violence
- Discussion groups with populations with high-risk of perpetration
- Social norming campaigns

Secondary

- Interim remedies and victim services
- Deterrence-based programs
- Awareness programming — Take Back the Night, etc.
- Social norming campaigns (can be primary or secondary depending on focus)

Tertiary

- Remedies for victims
- Offender treatment services
- Policies and procedures to address sexual violence
- Support groups and long-term remedies

SPECTRUM OF PREVENTION

- The Spectrum of Prevention is a “systematic tool that promotes a multifaceted range of activities for effective prevention.”
- Identifies multiple levels of prevention across systems, moving beyond the idea of prevention as individual education only

<http://www.preventioninstitute.org/component/taxonomy/term/list/94/127.html>

SPECTRUM OF PREVENTION (CONT.)

Influencing policy and legislation

Fostering coalitions and networks

Changing internal practices and policies

Educating providers and professionals

Promoting community education

Strengthening individual skills and knowledge

Cohen L, Swift (1999). The spectrum of prevention: developing a comprehensive approach to injury prevention. *Injury Prevention* 5,203-207

SOCIO-ECOLOGICAL MODEL

- Prevention requires understanding the factors that influence violence.
- The Socio-Ecological Model presents a framework for better understanding violence and the effect of potential prevention strategies.
- Considers four levels – individual, interpersonal, community, and society – and the complex interplay between them, which creates a range of risk factors for violence.

SOCIOECOLOGICAL FRAMEWORK

Prevention: The Eight C's

- Cogent
- Community-wide
- Collaborative
- Consistent
- Compliant
- Comprehensive
- Centrally-planned
- Culturally Competent

Note: The Eight C's are copyrighted to TNG, LLC.

① COGENT (CONT.)

② COMMUNITY-WIDE

MANDATED PROGRAMMING

Negative Consequence

A mandate with a negative consequence is often easier to create, administer, and enforce.

Examples:

- Hold placed on registration
- Bumped to the bottom of the housing request pool
- Parking limited to a specific, inconvenient lot

Positive Consequence

A positive mandate is more developmental, and students may have better learning outcomes.

Examples:

- Free tickets to the homecoming game
- Counts toward 3 of their required programming
- Parking pass to a premier lot

③ COLLABORATIVE

④ CONSISTENT

⑥ COMPREHENSIVE

⑦ CENTRALLY-PLANNED

⑦ CENTRALLY-PLANNED (CONT.)

⑧ CULTURALLY COMPETENT

UNIQUE CONSIDERATIONS

- Populations:
 - Male complainants
 - Complainants from historically marginalized groups/communities
 - LGBTQIA+ complainants
 - Minors
 - International parties
 - Parties with disabilities
 - Parties with histories of mental health issues
 - Complainants of drug-facilitated assaults
 - Complainants of repeat assaults

UNIQUE CONSIDERATIONS (CONT.)

- Underreporting
- Stereotyping
- Internalized and/or institutionalized bias/prejudice
- Lack of informed, available services

VAWA Reauthorization 2013 – Section 304: Prevention Programming

- Regulations repeatedly reference varying forms of programming, education, and initiatives targeting Sexual Assault, Domestic Violence, Dating Violence, and Stalking, such as:
 - Primary prevention programs
 - Ongoing prevention and awareness programming and campaigns
 - Risk factors, protective factors, and risk reduction
 - Programming that changes behavior and social norms
 - Programming that increases understanding and skills

VAWA EDUCATIONAL PROGRAMS AND CAMPAIGNS

- Description of Programs
- Traits of Effective Programs
- Primary Prevention
- Awareness Programs
- Incoming Students and New Employees
- Prohibiting the VAWA Offenses
- Bystander Intervention
- Risk Reduction
- Ongoing...

CLERY HANDBOOK

- *The Handbook for Campus Safety and Security Reporting* (2016) was rescinded and replaced by the *Clery Act Appendix for FSA Handbook* in October 2020.
 - The 2016 Handbook included detailed information for implementing the 2013 VAWA amendments to the Clery Act regulations.
 - The 2020 Handbook does not include this information.
 - ATIXA recommends following the guidance in the 2016 Handbook until replacement guidance is issued.

VAWA: EDUCATIONAL PROGRAMS AND CAMPAIGNS

ASR Statement must include:

- A description of the institution's educational programs and campaigns to promote the awareness of dating violence, domestic violence, sexual assault and stalking.
- A description of the institution's **primary prevention** and **awareness programs** for all incoming students and new employees.
- A description of the institution's **ongoing prevention** and **awareness campaigns** for students and employees.

Programming should include information on **risk reduction** and **must not** be presented in a manner that encourages victim blaming.

VAWA: EDUCATIONAL PROGRAMS AND CAMPAIGNS (CONT.)

- Programs should be tailored to each institution and its constituents and be:
 - Culturally relevant
 - Inclusive of diverse communities and identities
 - Sustainable
 - Responsive to community needs
 - Informed by research or assessed for value, effectiveness or outcome (i.e., research conducted according to scientific standards and efficacy assessments performed by institutions and organizations)
 - Consider environmental risk and protective factors as they occur in the individual, relationship, institutional, community, and societal levels. (8-3)

VAWA: EDUCATIONAL PROGRAMS AND CAMPAIGNS (CONT.)

“Incoming Students”

- First-year students
- Transfer students
- Student-athletes
- International students
- Graduate students
- Professional students
- Online students
- Others?

“New Employees”

- Full-time
- Part-time
- Faculty – all levels
- Staff
- Administrators
- Union and non-union
- Student employees:
 - RAs, TAs, GAs...
- Others?

TRAINEE POPULATIONS

- **Title IX Compliance Staff.** e.g., Coordinator and Deputies, Investigators, hearing boards (including appeals), and others involved in processing, investigating, or resolving complaints
- **First Responders.** e.g., RAs, health center employees, counselors, sexual assault response coordinators, academic advisors, and public safety
- **All Faculty & Staff; ATIXA Mandatory Reporters.** ATIXA recommends making all faculty and staff mandatory reporters.
- **All Students**
 - Undergraduate, graduate, professional, distance, and online, etc.

TRAINING COORDINATION AND OPERATIONALIZATION

- Centralization and oversight of school-wide efforts
- How?
 - In person? Online? Classroom?
 - Administrator-driven? Peer-driven?
- When/how often?
- Orientation: new student, transfer student, new faculty/teachers, and staff
 - Follow-up is crucial
- Ongoing prevention and awareness campaigns
 - Programs, conversations, speakers, hall and floor meetings, first-year seminar, third-party online training, etc.

GROUP ACTIVITY

- Planning Your Prevention Year

Specific Programs, Strategies, and Initiatives

- Perpetration-focused Prevention
- Environmental Management
- Social Norms/Normative Marketing
- Bystander Empowerment
- Awareness Initiatives

WHAT WORKS?

- 1. Perpetration-focused prevention**
- 2. Environmental management**
 - Community/campus partnerships
 - Reducing the locus of harm
- 3. Social norms/normative marketing**
 - If pluralistic ignorance exists and can be remedied, behavioral changes can result
 - If false consensus exists and can be dispelled, it can result in behavioral changes
- 4. Bystander empowerment**
- 5. Skills for preventing sexual violence**

RISK AND PROTECTIVE FACTORS

- **Risk factors** are linked to a greater likelihood of sex- or gender-based violence perpetration.
- They are contributing factors and might not be direct causes.
- Not everyone who is identified as at risk becomes a perpetrator of violence.
- A combination of individual, relational, community, and societal factors contribute to the risk of becoming a perpetrator of sex- or gender-based violence.
- Understanding these factors can help identify various opportunities for prevention.
- Institutions too often rely on prevention programming focused on protective factors to prevent victimization rather than addressing risk factors for perpetration.

Adapted from:

<https://www.cdc.gov/violenceprevention/sexualviolence/riskprotectivefactors.html>

RISK FACTORS FOR SEX- OR GENDER-BASED VIOLENCE PERPETRATION

Individual Risk Factors

- Alcohol and drug use
- Delinquency
- Lack of concern for others
- Aggressive behaviors and acceptance of violent behaviors
- Early sexual initiation
- Coercive sexual fantasies
- Preference for impersonal sex and sexual-risk taking
- Exposure to sexually explicit media
- Hostility towards women
- Adherence to traditional gender role norms
- Hyper-masculinity
- Suicidal behavior
- Prior sexual victimization or perpetration

Adapted from:

<https://www.cdc.gov/violenceprevention/sexualviolence/riskprotectivefactors.html>

RISK FACTORS FOR SEX- OR GENDER-BASED VIOLENCE PERPETRATION

Relationship Factors

- Family history of conflict and violence
- Childhood history of physical, sexual, or emotional abuse
- Emotionally unsupportive family environment
- Poor parent-child relationships, particularly with fathers
- Association with sexually aggressive, hypermasculine, and delinquent peers
- Involvement in a violent or abusive intimate relationship

Adapted from:

<https://www.cdc.gov/violenceprevention/sexualviolence/riskprotectivefactors.html>

RISK FACTORS FOR SEX- OR GENDER-BASED VIOLENCE PERPETRATION

Community Factors

- Poverty
- Lack of employment opportunities
- Lack of institutional support from police and judicial system
- General tolerance of sexual violence within the community
- Weak community sanctions against sexual violence perpetrators

Societal Factors

- Societal norms that:
 - support sexual violence
 - support male superiority and sexual entitlement
 - maintain women's inferiority and sexual submissiveness
- Weak laws and policies related to sexual violence and gender equity
- High levels of crime and other forms of violence

Adapted from:

<https://www.cdc.gov/violenceprevention/sexualviolence/riskprotectivefactors.html>

PROTECTIVE FACTORS FOR SEX- OR GENDER-BASED VIOLENCE PERPETRATION

- **Protective factors** may lessen the likelihood of sex- or gender-based violence victimization or perpetration.
 - These factors can exist at individual, relational, community, and societal levels.
- **Examples:**
 - Families where caregivers work through conflicts peacefully
 - Emotional health and connectedness
 - Academic achievement
 - Empathy and concern for how one's actions affect others

Adapted from:

<https://www.cdc.gov/violenceprevention/sexualviolence/riskprotectivefactors.html>

ENVIRONMENTAL MANAGEMENT

- Embraced by the National Institutes of Health and Centers for Disease Control and Prevention
- Many applications to alcohol, mental health, and suicide
- Not as much application to sexual assault, harassment, stalking, etc., to date. Studies are in progress.
 - *Sexual Citizens* by Hirsch and Khan
 - “Designing spaces and policies that moderate rather than augment existing power inequalities is essential to sexual assault prevention.”
- Approach: Addressing abusive/problematic organizations, improving safety, establishing and consistently applying policies, reducing alcohol and other drug issues on campus, addressing community-level risks through environmental approaches

NORMATIVE MARKETING

Normative marketing is based on the concept that people's behavior is influenced by what they *think* is “normal” or “typical.”

The problem is that people often misperceive what is “normal” or “typical.”

Social normative marketing strategies aim to provide accurate data about what the majority of others *actually* do.

NORMATIVE MARKETING (CONT.)

- Actions are often based on misinformation about or misperceptions of others' attitudes and/or behavior.
- When misperceptions are defined or perceived as real, they have real consequences.
- Individuals passively accept misperceptions rather than actively intervening to change them, hiding from others their true perceptions, feelings, or beliefs.
- Appropriate information about the actual norm will encourage individuals to express those beliefs that are consistent with the true, healthier norm, and inhibit problem behaviors that are inconsistent with it.
- For a norm to be perpetuated, it is not necessary for the majority to believe it, but only for the majority to believe that the majority believes it

NORMATIVE MARKETING (CONT.)

- Low entry cost, and relatively high entry energy
 - Target risky behaviors
 - Survey norms and targeted healthy norms
 - Share those norms with the community
 - Evaluate
- Posters, restroom stalls, emails, and e-banners to disseminate information
- Data can be integrated into classes
- “Put some spinach in the smoothies.” – Dr. Chris Linder

NORMATIVE MARKETING APPLIED

- What unhealthy norms exist within our communities that we could use to reprogram norms specific to sexual violence, stalking, IPV, and sexual harassment?
 - Women don't mind sexual harassment
 - Men don't care how sexual harassment by other men makes women feel about them
 - Men aren't bullied, harassed, or assaulted
 - Showing respect for women is a sign of weakness
 - Others

SAY WHAT THE REST OF US ARE THINKING

Most Berkeley grad students
would challenge a sexist joke

#WeCARE

Data: 2018 UC Berkeley MyVoice Survey

PATH to Care Center

care.berkeley.edu

BYSTANDER INTERVENTION

- Think back to sexual assault prevention from the 90s and early 2000s....
 - Educating young women to watch their drinks and travel in groups
 - Know your surroundings and always have a backup plan to call for help
 - Rape whistles, pepper spray, tasers
 - Training in self-defense

BYSTANDER INTERVENTION (CONT.)

Shift to....

BYSTANDER INTERVENTION (CONT.)

- Shifting the onus of preventing rape from the victim and to the community and the perpetrator
- Focus on fixing the problem rather than teaching women to not become victims
- Creating safe places to gather; the community is collectively responsible for maintaining a safe environment
- Community is encouraged to address inappropriate behavior by not tolerating sexist jokes, misogynistic behavior, etc.; and is trained in intervening when there are at-risk behaviors present

BYSTANDER INTERVENTION (CONT.)

**“37 WHO SAW
MURDER DIDN'T
CALL THE POLICE”**

- The New York Times
March 27, 1964

Kitty Genovese

- In 1964, Kitty Genovese was stabbed, robbed sexually assaulted, and murdered.

Bystanders

- It happened on the street, in public
- It went on for 30 minutes
- 37 witnesses heard her and saw her

Latane & Darley

- Bystander Effect
 - Conducted experiments to understand why people didn't intervene

Latane, B and Darley, J. (1970). *The unresponsive bystander: Why doesn't he help?*. Appleton-Century Crofts: University of Minnesota

BYSTANDER INTERVENTION (CONT.)

A bystander is anyone who observes a dangerous or potentially dangerous situation

- The Bystander Effect occurs when an individual chooses not to act
 - *Diffused responsibility*
 - *Pluralistic ignorance*
- Bystander Intervention involves engaging community members in reducing, stopping, or preventing behavior that is harmful.

Latane, B and Darley, J. (1970). *The unresponsive bystander: Why doesn't he help?*. Appleton-Century Crofts: University of Minnesota

BYSTANDER INTERVENTION (CONT.)

A positive bystander and prevention model takes a wider, community-based approach that shifts cultural norms and expectations of behavior rather than simply targeting individuals as potential victims or perpetrators.

Barriers to helping...

- Believe others think the behavior is okay
- Afraid to act in a way that is socially unacceptable
- Believe it is “not our business”
- Believe someone else will help
- Not in tune with surroundings
- Not sure what to do

Encouragers to helping...

- Creation of a culture that values respect, helping others, wellness, empowerment, etc.
- Training on red flags and what to look for to identify a problematic situation
- Development of a community approach to responsibility
- Having the confidence and ability to know how and when to intervene

BYSTANDER INTERVENTION (CONT.)

Can be used to address...

**Sexual
Harassment**

Objectifying,
gender-
focused jokes,
sexual
comments,
bullying, and
vulgar pictures

Seductive
behavior and
inappropriate
advances

Touching,
pinching,
and groping

Threats,
blackmail,
sexual bribery,
and stalking
(pre-attack)

Physical force,
sexual
fondling, rape,
IPV, and
stalking (post-
attack)

**Sexual
Assault**

BYSTANDER INTERVENTION – BUILD IT OR BUY IT?

Build it Pros

- Better content control
- More tied to institutional communality and standards
- Cheaper
- Easier to update and alter
- Easier referral to services and departments on campus
- Potential for higher stakeholder buy-in

Build it Cons

- Time consuming
- Garbage in = Garbage out
- Potential for splintering of mission goals
- Reactive rather than strategic prevention effort
- Lack of content expertise
- Lack of research expertise
- Bias and blind spots

BYSTANDER INTERVENTION – BUILD IT OR BUY IT? (CONT.)

Buy it Pros

- Program in a box
- Easy to implement
- They will use school graphics and links
- Annual research reports
- Conferences and training opportunities for staff
- Updatable content

Buy it Cons

- Higher cost
- Potential for harsh audits of services
- May follow a one-size-fits-all approach, lack of customization
- Multi-year contract lock in required

STEP UP!

5 DECISION MAKING STEPS

1. Notice the event.
2. Interpret the event as a problem
— investigate!
3. Assume personal responsibility.
4. Know how to help.
5. Implement the help: Step UP!

- Gives a clear example of how bystander intervention should work.

OTHER RESOURCE RECOMMENDATIONS

- Videos
- Speakers
- Campaigns
- Trainings
- Others?

INCORPORATING CYBER SEXUAL ABUSE BEHAVIORS

- Non-consensual pornography
 - intimate photos or videos taken without consent
 - consensual intimate photos or videos distributed without consent
- Upskirting
 - snapping sexually intrusive photos, often of someone's genitals, without their knowledge
- Sextortion
 - form of blackmail in which sexual information or images are used to extort

KEEPING PREVENTION EDUCATION CURRENT

- Cyber sexual abuse is both more misunderstood and more tolerated both in society and by victims
- Photos and videos can be altered
- Research around technology-based violations is limited and new
- Images may be posted with victim's contact information, inciting further harassment (“doxxing”)
- Most images are authored by their victims, meaning they retain ownership rights

KEEPING PREVENTION EDUCATION CURRENT (CONT.)

- Possibly increased vulnerability due to:
 - Growing role of technology in daily life
 - Expanding digital histories
- Address technology hygiene
 - Password strength/two-factor authentication
 - Device passcodes and remote wiping
 - Not sharing accounts
 - Public Wi-Fi concerns
 - Social media account privacy
 - Friends tagging posts
 - Searchability
 - Location

Source: <http://www.stopstreetharassment.org/2016/02/addressing-revenge-porn/>

PRESENTATION SKILLS

- Strategies for Developing and Delivering Strong Presentations

PRESENTATION SKILLS

- Being able to deliver material in an effective manner is critical to having the audience understand and digest the material.
- This means programs should be interesting, hold the audience's attention, and challenge their perspectives.
- Having solid, researched-based content is not sufficient. Delivering content in a way that is effective for a given group is essential.

DEVELOPING A MARKETING STRATEGY

Audience

01

Who is the audience ?

02

Content

What does this specific audience need to know?

03

Format

What is the best way to reach them?

04

Buy-In

How do I get participation from them?

PRESENTATION SKILLS (CONT.)

Don't

- Antagonize the audience or put them on the defensive
- Use jargon or language unfamiliar to the audience
- Rely on scare tactics, use victim blaming language, or bash men.
- Take offense to or get thrown off by tough questions

Do

- Begin by building rapport and connecting with the audience
- Appeal to attendees' humanity and allegiance to your community
- Use humor to poke fun at outdated norms related to dating and sex
- Make your message digestible
- Use multiple modalities

PRESENTATION SKILL DO'S

- Use multiple methods of delivery
- Be confident, patient, and graceful
- Be aware of time, technology, and space restrictions
- Address any elephant in the room issues
- Tread carefully on “third rail” issues
- Understand the audience’s motivation for attending and the context of how they see the material
- Write programs that address cultural, generational, sexual orientation, gender, and racial/ethnic differences

PRESENTATION SKILL DON'TS

- Have great material and information and over-focus on content while neglecting delivery
- Lecture the entire time or read off of slides
- Allow too many questions that disrupt flow
- Lose your cool and over-engage with topic
- Speak over or “hog the mic” when co-presenting
- Run over time
- Embarrass or shame participants
- Fail to plan for unanticipated technology issues

TRAINING RESISTANT OR DISRUPTIVE INDIVIDUALS

- What kind of resistant or disruptive trainees have you encountered?
- Tips for Responding:
 - Take a breath, respond with understanding, grace, and confidence – not defensiveness or anger
 - Find common ground when you can
 - Redirect and constructively correct or guide in a more productive direction
 - When disruptive, rude, inappropriate, etc., stop the behavior/comments, disengage, and move on

PRESENTATION SKILLS FOR SPECIAL POPULATIONS

- Orientation and first-year populations
- Mental health needs
- Non-traditional students
- Graduate and professional students
- Commuters
- Minors (high school students on campus)
- Student organizations
- Student-athletes
- International students
- Captive and mandated programming

TRAIN THE TRAINER

An expert staff member teaches a group of trainers the content AND how to teach it.

The newly trained trainers observe the training, then practice teaching it in front of expert staff and other trainers.

The group of trainers deliver the training to the community.

TRAIN THE TRAINER (CONT.)

Pros

- Helps leverage limited resources
- Peer-based education is often better received
- Gains buy-in across the community

Cons

- If trainers aren't well-trained, can go poorly
- Increases staff time spent on hiring, training, and supervising the trainers
- Turnover rates in trainers

GROUP ACTIVITY

- Case Study Vignettes:
Training Resistant or
Disruptive Individuals

Neurobiology of Trauma

- Introduction to Trauma
- Neurobiological Impact of Trauma
- Considerations for Interviewing

ATIXA POSITION STATEMENT

- Worry that application of the knowledge obtained by practitioners in our field has gotten way ahead of the actual science
- The body of knowledge is being misapplied
- Some purveyors of this knowledge are politically motivated to extrapolate well beyond any reasonable empirical conclusions currently supported by the science
- The field needs to incorporate trauma-informed investigation and interviewing methods into its best practices, provided that they do not compromise the ability to obtain credible, relevant evidence

ATIXA POSITION STATEMENT (CONT.)

- However, the “Neurobiology of Trauma” should not significantly influence the way that colleges and schools evaluate evidence
- We can be trauma-informed in our investigations without allowing trauma to unduly influence our interpretation of evidence
- Wise administrators are vetting their training materials for potential indications of bias to ensure the best possible defense to a claim of a biased resolution process
- Not suggesting that Title IX professionals forego trauma training, but that the trainings must be balanced, or, better yet, obtained from a balanced source

WHAT IS TRAUMA?

Exposure to an event or events that creates a real or perceived threat to life, safety, or sense of well being and bodily integrity.

- May result from:
 - War
 - Natural Disasters
 - Sexual Violence
 - Relationship Violence
 - Stalking

Trauma may be acute, chronic, or complex.

TYPES OF TRAUMA

TYPE	DEFINITION
Developmental	Early or ongoing exposure to trauma during infancy and childhood
Intergenerational	Psychological or emotional effects that can be experienced by people who live with trauma survivors; coping patterns can be passed from one generation to the next
Historical	Trauma experienced by a specific cultural group that has a history of being systematically oppressed
Secondary	Development of trauma-like response symptoms without witnessing or being directly involved in a traumatic event
Vicarious	Repeated exposure to other people's trauma
Collective	Psychological reactions to a traumatic event that affect an entire society

HOW THE BRAIN AND BODY RESPOND TO TRAUMA

- **Amygdala:** The brains emotional computer and alarm system
- **Hippocampus:** Brains storage for our most recent, conscious memories
- **Pre-frontal Cortex:** Where information is used to make decisions about cognitive and emotional responses

HOW THE BRAIN AND BODY RESPOND TO TRAUMA (CONT.)

Amygdala senses a threat and sets off flight, fight, freeze, fawn response

Hypothalamus begins responding to the crisis by sending messages and hormones

The adrenal gland produces hormones to help the body respond to the stress

Hormonal flood produces a biological response across the body

HOW THE BRAIN AND BODY RESPOND TO TRAUMA (CONT.)

Retrieved from: <https://www.khanacademy.org/science/health-and-medicine/mental-health/anxiety/a/post-traumatic-stress-disorder-article>

IMPACT OF TRAUMA ON FUNCTIONING

HORMONAL FLOOD

- **Catecholamines (Adrenaline):** responsible for fight or flight; create mobilization but impair rational thought and decision-making
- **Opioids:** to deal with pain, create flattening affect
- **Cortisol:** affects energy availability
- **Oxytocin:** promotes good feelings to counterbalance sensation of pain

Can last 96 hours

HORMONAL FLOOD (CONT.)

These hormones affect the body's ability to....

React physically

Think rationally

Consolidate or
group memories

This is a neurobiological response, not a choice.

EFFECTS OF FLOODING

Hormones are released in varying amounts and may result in behavioral differences among victims:

- Fight, Flight, Freeze, Fawn – not a choice. Also impacted by chemical surge into prefrontal cortex, impairing ability to think rationally
- May present as confused, laughing, crying, flat, angry, irritable, or variable

TONIC IMMOBILITY

- Hormonal flood and dysregulation of the autonomic nervous system can cause the body to shut down
- “Rape-induced paralysis”
- Up to one-half of those who experience a sexual assault will also experience tonic immobility, like being awake during surgery
- Know what is happening but can’t fight
- This is a biological response based on survival; think of the animal world

MEMORY AND SEXUAL ASSAULT

Hippocampus is the “memory maker;” processes information into memories

Memory is formed in two steps:

1. **Encoding:** organizing sensory information coming into brain
2. **Consolidation:** grouping into memories and storing the stimulus

MEMORY AND SEXUAL ASSAULT (CONT.)

- The hormonal flood doesn't interfere with the laying down of memory or its accuracy, but it does impair the ability of the hippocampus to **consolidate** memory.
- May create fragmented memories
- Recall can be slow and difficult

EFFECT OF ALCOHOL OR OTHER DRUGS

- Alcohol (or other drugs) will also interfere with encoding of the context details such as time, place, and exact sequence of events
- What is encoded will be fragmented; may result in spotty memory
- Brain will still process sensory information, like smell

EXPECTATIONS DURING INTERVIEW

- Expecting a Complainant to give a linear account in the days after an incident, or after having been triggered, may not be realistic.
- Memory fragmentation can be a neurobiological condition.
- Having “inconsistent” memory, pausing, and stumbling to provide an account are normal.
- Considerations for credibility assessment
 - Recognize we cannot excuse or dismiss discrepancies in testimony, but we can understand why they may exist

ADDITIONAL IMPACTS DURING THE 96 HOURS

- Physical toll on body: headaches, body ache, GI issues
- Compromised decision-making
- Emotional swings
- Self-medicating behaviors

RESPONSES TO TRAUMA

Fight

Flight

Freeze

Fawn

Trauma responsive behaviors appear both during a traumatic experience and as a result of a traumatic experience.

FIGHT RESPONSE

THREAT RESPONSE

- Attack
- Assault
- Exhibit Anger

STRESS RESPONSE

- Self-preservation at all costs
- Explosive temper and outbursts
- Aggressive, angry behavior
- Controlling behaviors
- Difficulty hearing other points of view
- Demanding of others
- Dictatorial tendencies

FLIGHT RESPONSE

THREAT RESPONSE

- Attempt to flee or hide
- Pursue safety

STRESS RESPONSE

- Obsessive and/or compulsive behavior
- Feelings of panic and anxiety
- Over-worrying
- Can't sit still; can't relax
- Tries to micromanage situations and other people
- Always “on the go”

FREEZE RESPONSE

THREAT RESPONSE

- Can't move
- Shut down
- Feel numb

STRESS RESPONSE

- Isolation
- Brain fog
- Disassociation
- Spacing out
- Difficulty making and acting on decisions
- Wants to hide from the world
- Achievement-phobic
- Inactive

FAWN RESPONSE

THREAT RESPONSE

- Try to please others
- Neglect own boundaries and needs

STRESS RESPONSE

- People-pleaser
- Poor boundaries
- Co-dependent
- Afraid to express true thoughts and feelings
- Apologizes for everything
- Flatters others in an exaggerated fashion

IMPACTS OF TRAUMA

VICTIM RESPONSE TO TRAUMA

May be impacted by:

- Personality
- Coping strategies
- Available support systems and resources
- General resilience
- Past history of traumatic experiences
- Cultural differences in the perception and expression of trauma
- Normalization/adaptation

IMPACT ON PARTNERS, FAMILY, AND FRIENDS

- Secondary, or indirect, victims
- Often suffer many of the same initial and long-term symptoms
- Overprotection or blame
 - Important to have informed and helpful point of contact with the institution (as permissible given privacy issues)
- High stress associated with unsupportive behaviors (e.g., emotional withdrawal, blaming)

IMPACT OF STALKING ON VICTIMS

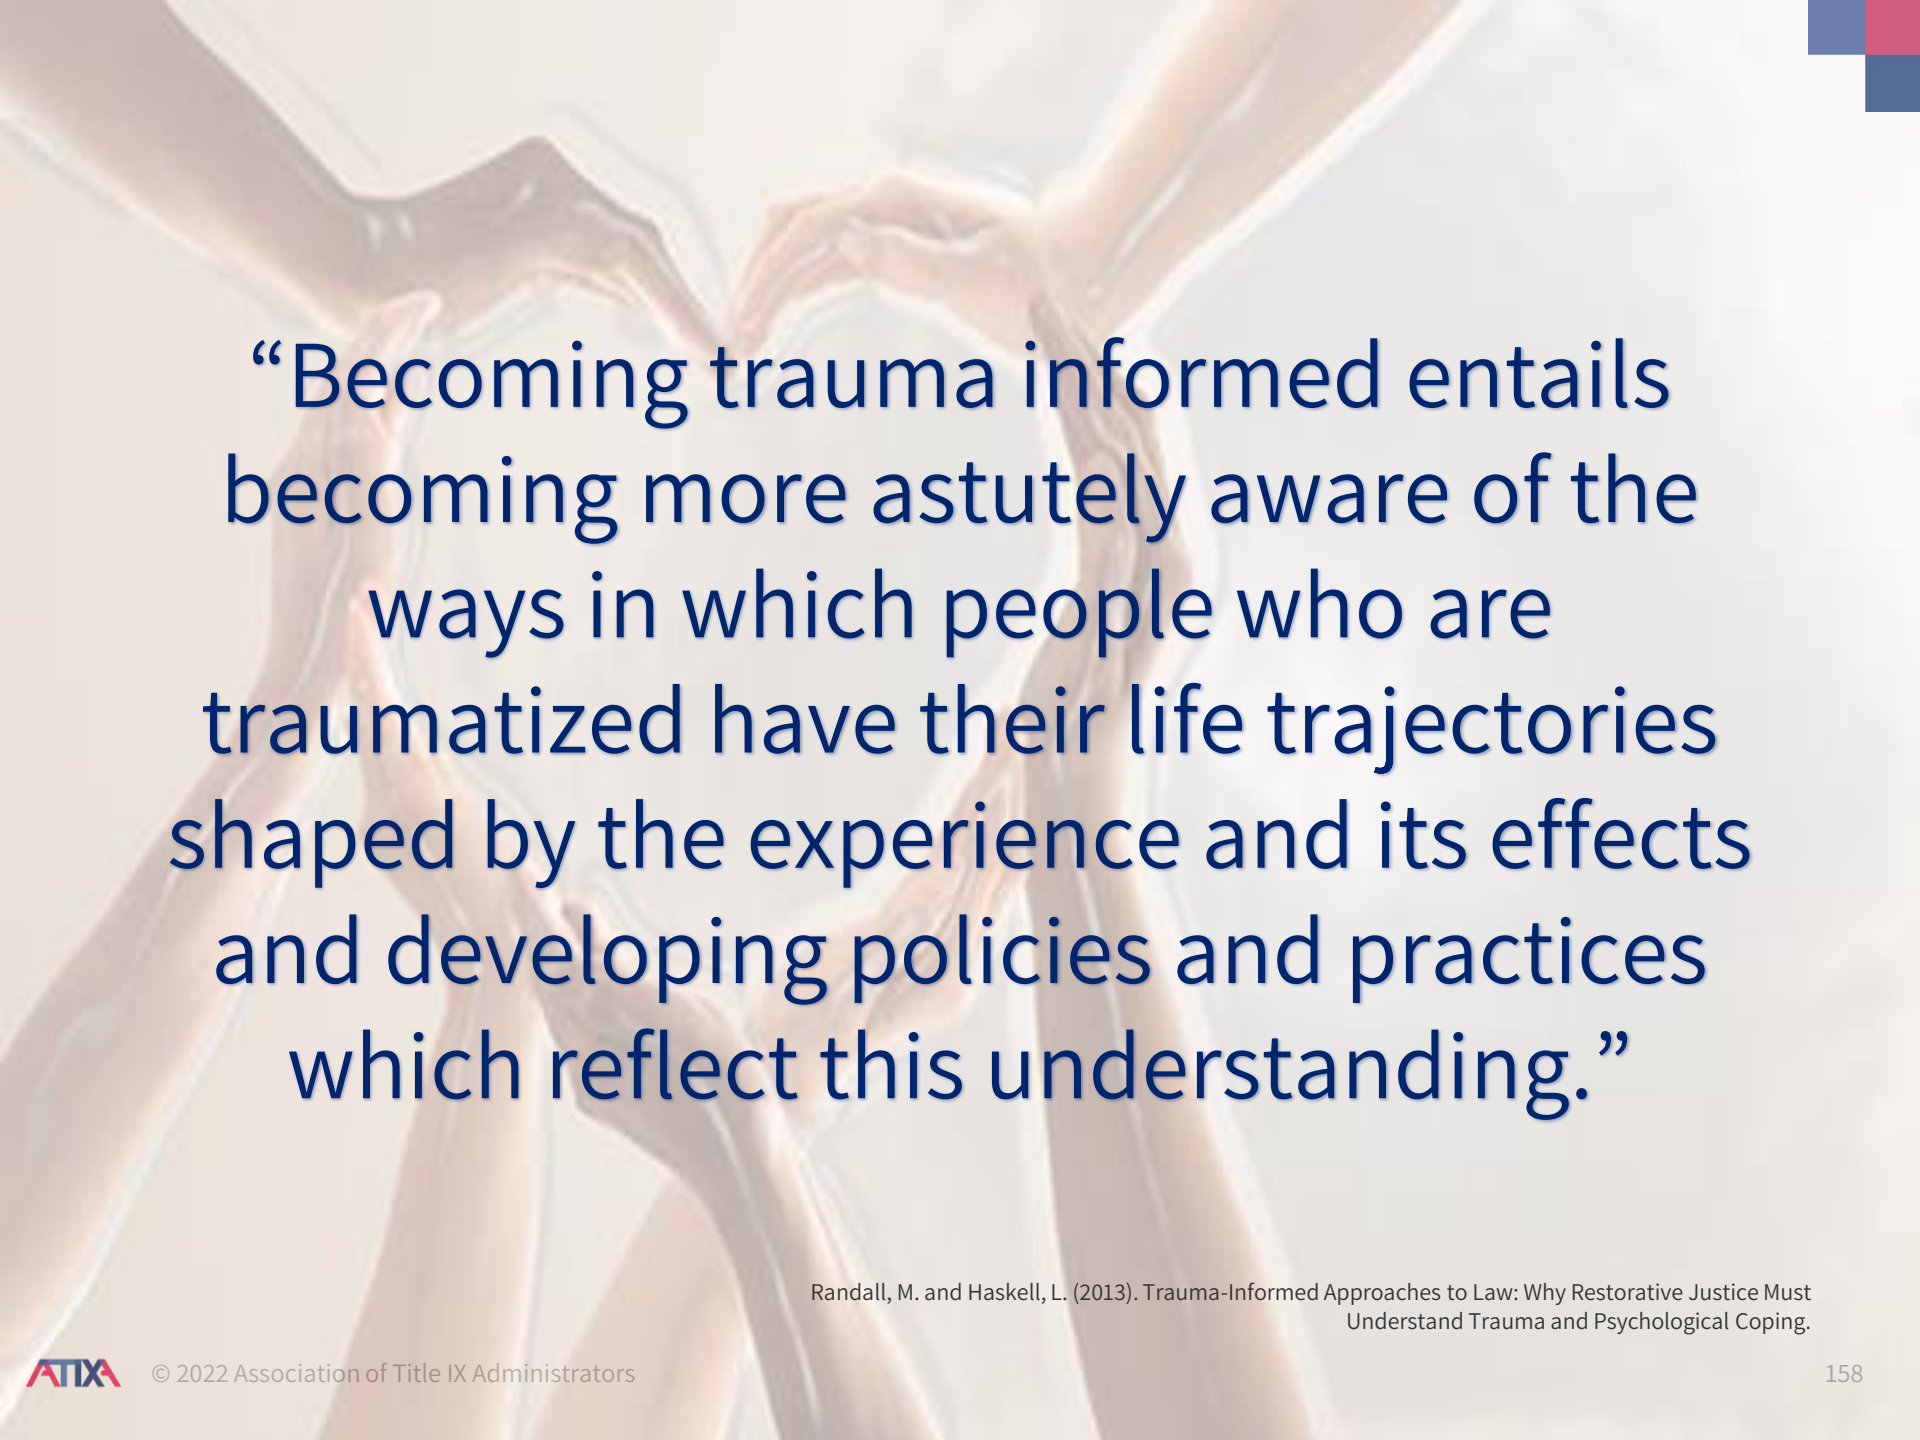

- 46% of stalking victims fear not knowing what will happen next.
- 29% of stalking victims fear the stalking will never stop.
- 1 in 8 employed stalking victims lose time from work as a result of their victimization and more than half lose 5 days of work or more.
- 1 in 7 stalking victims move as a result of their victimization.
- The prevalence of anxiety, insomnia, social dysfunction, and severe depression is much higher among stalking victims than the general population, especially if the stalking involves being followed or having one's property destroyed.

National Stalking Resource Center, <http://victimsofcrime.org>

Trauma-Informed Intake and Interviewing

- Intake and Interview Overview
- Considerations for Conducting Interviews and Intakes
- Information Gathering Techniques

A background image showing several hands of different skin tones reaching up and interlocking to form a heart shape. The image is slightly faded and serves as a backdrop for the text.

“Becoming trauma informed entails becoming more astutely aware of the ways in which people who are traumatized have their life trajectories shaped by the experience and its effects and developing policies and practices which reflect this understanding.”

Randall, M. and Haskell, L. (2013). Trauma-Informed Approaches to Law: Why Restorative Justice Must Understand Trauma and Psychological Coping.

INTAKE AND INTERVIEWING

SO, WHO CONDUCTS AN INTAKE?

INTAKE MODELS/APPROACHES

- Sexual Assault Response Team (SART)
- Crisis Center
- Key person
 - Coordinator, Advocate, Administrator
- Advocacy Group
- “No Wrong Doors”

HOW DOES INTAKE DIFFER FROM ADVOCACY?

Advocacy

- More “partisan”
- Coordinating resources and remedies
- Longer-term
- Listening, guiding, supporting
- More legally oriented

Intake

- More “neutral”
- Connect with resources and remedies
- Initial contact
- Receiving information/report
- Less legally oriented

CONSIDERATIONS FOR INTAKES AND INTERVIEWS

Environment

Rapport and
Trust

Language

Trauma
Informed

WHAT MIGHT SHUT VICTIMS DOWN

- Unsupportive responses
- Avoid:
 - Taking control more than needed
 - Escalating the situation
 - Defining or labeling their experience
 - Asking why questions
 - “Why did you . . . ?”
 - Verbalizing judgment in the moment
 - Telling them they must press charges or submit a formal complaint

INTERVIEW AND INFORMATION GATHERING TECHNIQUES

- Four courses dedicated to investigation, including Civil Rights Investigator Four: Advanced Interviewing Skills
- Stage-setting
- Notes/recording
- Professionalism
- Wrap-up

COMMON INTERIM & LONG-TERM REMEDIES FOR STUDENTS

- No-contact orders
- Providing a safety escort
- Adjusting course schedules, coursework, groupwork, etc.
- Residential life adjustments
- Transportation assistance
- Counseling services
- Medical services
- Academic support services, such as tutoring
- Re-take a course/withdraw from a class without penalty
- Refunds, transcript adjustments
- Incompletes and Independent Study
- Taking actions to prevent retaliation
- School-wide training and education initiatives & programming
- Referral to and facilitate connection with police and community resources

COMMON INTERIM & LONG-TERM REMEDIES FOR FACULTY & STAFF

- No-contact orders
- Providing a safety escort
- Adjusting work schedules
- Adjust supervisory/ reporting arrangements
- Counseling services (EAP, etc.)
- Paid Leave
- Unpaid Leave (use caution)
- Adjusting work tasks
- Taking actions to prevent or redress retaliation
- Training and education initiatives
- Supervisor notification
- Referral to and facilitate connection with police and community resources
- Sensitivity training and educational programming

UNDERREPORTING

Remember, not everyone makes it to the intake/interview phase....

- Fear of not being believed
- Fear of being blamed
- Not defining what happened as sexual harassment
- Fear of retaliation
- Concerns about confidentiality
- Negative associations with medical, law enforcement, or legal establishments
- Cultural norms
- To whom and how to disclose
- Concerns if alcohol or drugs were used and/or if underage
- Delayed reporting
- Re-traumatization
- Nothing will come of it
- Others?

Title IX and BIT

- Overview of Individual Roles and Responsibilities
- Shared and Overlapping Reports
- Information Sharing
- Role of Title IX on the BIT

DEFINING TERMS: BEHAVIORAL INTERVENTION TEAMS

BIT

“Behavioral Intervention Teams are small groups of school officials who meet regularly to collect and review concerning information about at-risk community members and develop intervention plans to assist them”

NABITA Advisory Board, 2018

OVERLAP OF TITLE IX AND BIT: UNDERSTANDING SCOPE & EXPERTISE

Title IX Staff

- Responsible for addressing sex/gender-based discrimination
- Legal requirements to **investigate** reported incidents, **stop** the discrimination, **prevent** its recurrence, and **remedy** the effects
- Expertise in investigations, due process, interim measures, etc., but not necessarily in violence risk assessment, prevention, and intervention

BIT Members

- Responsible for responding to **all** reported concerning behavior
- **Receive** all reports of concern, **assess** the risk for future concern, and **deploy** intervention to mitigate the risk
- Expertise in responding holistically to student needs and are trained in identifying, assessing, and responding to indicators of problematic or violent behavior but not necessarily in investigations, hearings, and due process.

OVERLAP OF TITLE IX AND BIT (CONT.)

- Communication between BIT and Title IX utilizes the strengths and expertise of the BIT and of Title IX practitioners, resulting in:
 - Streamlined processes
 - Avoiding duplication
 - Removing silos
- Title IX staff are responsible for conducting investigations and implementing prompt and effective responses to stop the behavior, remedy the impact, and prevent the recurrence. Increasingly involving a risk assessment component:
 - Interim suspensions/emergency removals

OVERLAP OF TILE IX AND BIT (CONT.)

- BITs are designed to assess reported behavior using an objective rubric and intervene using standardized intervention protocols
 - Reduces the vulnerability for accusations of bias
 - Processes and interventions apply to everyone (not just sex- or gender-based incidents like Title IX)
 - Reduces likelihood of over/underreacting to reported behaviors
- When the intersection of these two processes is done well, students and employees are better served and institutions are better protected

OVERLAP OF TITLE IX AND BIT (CONT.)

Title IX Cases

Complaints involving incidents of aggression, threats of violence, violence, harm to self, stalking, hazing, vandalism, substance abuse.

For example:

- Hallucinations that cause Complainant to believe they are being stalked
- Respondent has history of suicidal ideation
- Employee's ex-partner repeatedly calls the workplace and makes threats to employee and coworkers

BIT Cases

Referrals with components of gender-based violence necessitating Title IX-based response.

For example:

- Multiple women report that a male student is “making them uncomfortable” and behaving strangely
- Employee notifies campus police that they recently obtained an order of protection from their estranged spouse
- Student employee has been frequently late or absent from work and has visible bruising on multiple occasions

OVERLAP OF BIT AND TITLE IX (CONT.)

Sharing Information

- Supportive Measures
 - No-Contact Orders
 - Housing assignments and restrictions
 - Classroom or classwork modifications
 - Restrictions to areas of campus/specific activities
 - Emergency Removals
- Pending Informal Resolutions
- Pending Investigations/Formal Resolutions
- Outcomes, Sanctions, and Remedies
- Pending criminal investigations
- Consider communications strategies

TITLE IX ON THE BIT

Benefits

- ✓ Helps break down institutional silos
- ✓ Specialty knowledge of interim measures & remedies – for issues even beyond Title IX
- ✓ Streamlines an appropriate response to Title IX issues
- ✓ Title IX staff may know about potential risks others aren't aware of due to responsible employee reporting requirements

Cautions

- Could lead to allegations of bias
- Many of the reports discussed by the BIT are not relevant to Title IX
- Adds another person to a team with already limited space
- Could be a conflict of interest if the person selected to serve on the BIT wears multiple hats (e.g., Deputy Title IX Coordinator and Decision-maker)

TITLE IX ON THE BIT (CONT.)

Understanding BIT Membership

- BITs are comprised of four types of members, each of which varies in their level of communication, access to database, and attendance at meetings.

TITLE IX ON THE BIT

Should a Title IX representative serve on the BIT?

- Title IX Coordinator or Deputy Coordinator, not an Investigator, should be the liaison with the BIT
- Serve as “middle circle member” of the BIT, not a core member
 - Invited when they may have insight into a case
 - Aware of who is on the agenda to be discussed
 - Has limited to no access to the entire BIT database
- Title IX Coordinator should be well-trained in BIT philosophy, procedure, and operations
- BIT members should be well-trained in scope of Title IX, ability to stop, prevent and remedy, and how to make a Title IX report

VICTIM ADVOCACY

- Victim Advocacy Tenets
- Advocate Role & Advocacy Issues
- Privacy & Confidentiality
- Victim Rights
- Campus Response Team
- Medical Exam and Evidence Collection

TERMINOLOGY FOR VARIOUS TYPES OF SUPPORT OFFERED

Victim Advocate

- Provides confidential services
- Emotional support
- Psychoeducation
- Advocacy services

Respondent Services

- Provides equitable services to that of advocacy
- Emotional support
- Connection to resources

Process Advisor

- Provides education related to the Title IX process
- Accompanies to all meetings, hearings, etc.
- Under 2020 regulations, must provide cross examination

BASIC TENETS OF VICTIM ADVOCACY

Provide information about choices

- Medical:
 - Physical injury
 - STI Testing or treatment
 - Evidentiary exam
- Legal:
 - Criminal – SRO, Campus or local police (if desired by victim)
 - Civil
 - Protection From Abuse (PFA) Order
- Campus:
 - Public Safety or SRO
 - Internal disciplinary and Title IX procedures

BASIC TENETS OF VICTIM ADVOCACY (CONT.)

- Listen with respect, not judgment
- Provide options not advice
- Cooperation among response team – Protocols

COMMON ROLES OF AN ADVOCATE

- Support
- Empowerment
- Medical evidentiary exam accompaniment
- Law enforcement statement accompaniment
- Courtroom accompaniment
- Psychoeducation
- Campus-based resolution accompaniment
- Listen, listen, listen

PRIVACY & CONFIDENTIALITY

- Higher education institutions may (should) designate Victims Advocates as confidential for Title IX reporting purposes.
 - All K-12 employees are mandatory reporters by law
 - Aggregate data still needed
- Provides and gives back a sense of control
- Provides a safe haven, making disclosure more safe
- Ensure that limits to confidentiality are known

OVERLAP WITH LAW ENFORCEMENT

- Victims may report to law enforcement and pursue criminal action
 - This is the choice of the victim
 - Advocates can provide services through this external process
- Law enforcement statement:
 - Victim's right to an advocate
 - Victim reviews and signs official version
 - Understanding that a victim's state of mind may change in the time following an assault
 - Details may become more or less clear and/or vary from the immediate aftermath

INSTITUTION-BASED RESPONSE TEAM

- Advocate/Advisor
- Medical/Counseling personnel
 - Student Health
 - Counseling Services – Student, Employee Assistance Program
 - School Psychologist/Social Worker
- Law Enforcement
 - Local Police
 - Public Safety/SRO
- Internal Resolution Services
 - Title IX, Student Conduct/Discipline, Human Resources
- Student Affairs/Services personnel

SANE/SAFE NURSES

- Sexual Assault Nurse Examiner (SANE)/Sexual Assault Forensic Examiner (SAFE)
- Specially trained to complete a medical-legal exam of sexual assault victims
- Improved evidence collection and more sensitive initial medical response
 - Photos
 - Observations and examination
 - DNA samples
 - Victim statement

MEDICAL-EVIDENTIARY EXAM

Medical-evidentiary exam:

- Victim cooperation with law enforcement is not required
- No out-of-pocket expense
- Privacy
- Consent required for each element of exam; can be withdrawn at any time

MEDICAL-EVIDENTIARY EXAM (CONT.)

- The sooner after an assault, the more evidence may be recovered
- To preserve evidence, it is recommended that victims refrain from:
 - Eating/drinking/smoking
 - Bathing/showering/brushing teeth
 - Urinating/defecating/douching
 - Changing clothes
- No judgment or blame if a victim has already done or chooses to do any of the above

MEDICAL-EVIDENTIARY EXAM (CONT.)

- If drug facilitation is in question, the following can be preserved as evidence:
 - A potentially drug-laced drink
 - Vomit
 - Urine
 - Blood
- Emergency Department
 - SANE/SAFE called if available
 - Otherwise, ER physician or OB/GYN resident on call
 - Delays are possible
 - Lengthy process
 - Chain of evidence

ELEMENTS OF A MEDICAL-EVIDENTIARY EXAM

- Medical history
- Stand over paper to collect any evidence that might fall off of a victim's body
- Clothing collection, if possible
- External exam
- Collection of victim samples: hair, blood, urine, saliva, skin, nails, etc.
- Internal exam(s), as necessary:
 - Oral, vaginal, and/or anal
 - May include use of a colposcope, or small camera, to document internal injuries such as tears or bruising
- Treatment

WORKING WITH RESPONDENTS

Respondents are also entitled to an Advisor or support person

Should be well trained in the Recipient process

Should not be the same person as the Complainant's support person or Advisor

WORKING WITH RESPONDENTS (CONT.)

- Reputation/perception of office by campus community
- Lack of diversity of those involved in the process
- Trauma-informed processes can create actual or perceived bias in favor of Complainants and against Respondents
 - “Believe first” mindset
- Have printed materials specific to the common questions and concerns of Respondents
- Acknowledge and plan for their need for support
 - Counseling
 - Advisors

WORKING WITH RESPONDENTS (CONT.)

- Emphasize the institution's focus on the fairness of the process, not the outcome of the complaint
- Be exceedingly transparent about process and timelines
 - Notice of allegations/investigation
- Interim measures must be tailored to the specific circumstances
 - The era of blanket “interim suspensions” is (and should be) over
- Ensure that the process considers both exculpatory and inculpatory evidence
 - Investigator and Decision-maker work product should reflect this consideration

ADVOCACY ISSUES

- **Compassion Fatigue:** “The profound emotional and physical erosion that takes place when helpers are unable to refuel and regenerate.” (WCASP, 2019)
- **Vicarious Trauma:** A cognitive shift in beliefs about oneself or one’s world view about issues such as safety, trust, or control. For example, hearing about a particularly horrible event might compromise one’s trust or faith in humanity. (Newell and MacNeil 2010)

Washington Coalition of Sexual Assault Programs February 2019

ADVOCACY ISSUES (CONT.)

- **Secondary Traumatic Stress:**

The emotional duress that results when an individual hears about the firsthand trauma experiences of another. Symptoms mimic PTSD. (WCSAP, 2019)

- **Burnout:** Burnout can include emotional exhaustion, depersonalization or cynicism, and detachment, as well as a reduced sense of personal accomplishment. (Newell and MacNeil 2010)

- **Organizational Trauma:** A collective experience that overwhelms the organization's defensive and protective structures leaving the entity vulnerable and helpless. (WCSAP, 2019)

Washington Coalition of Sexual Assault Programs February 2019

WARNING SIGNS OF COMPASSION FATIGUE AND VICARIOUS TRAUMA

Physical

- Exhaustion, insomnia, or hypersomnia
- Headaches, frequent illness
- Somatization (stress manifested as illness) such as acne, stomach aches, digestive issues, etc.

Behavioral

- Increased use of alcohol, drugs, or other addictions
- Absenteeism or avoidance of work
- Over-committed to work, exaggerated sense of responsibility
- Anger, irritability, forgetfulness
- Difficulty in relationships

Psychological

- Feeling emotionally drained, difficulty feeling sympathy or empathy
- Distancing/isolation
- Feeling cynical, resentful, professionally helpless
- Symptoms of anxiety or depression
- Negative self-image

Adopted from Washington Coalition of Sexual Assault Programs, February 2019

STRATEGIES FOR COPING W/ COMPASSION FATIGUE & VICARIOUS TRAUMA

Building Resiliency

- Disrupt the routine and engage your creativity
- Set boundaries
 - Don't check email at home
 - Take time off
 - Purposefully transition to “home life”
 - Build institutional or infrastructure

STRATEGIES FOR COPING W/ COMPASSION FATIGUE & VICARIOUS TRAUMA (CONT.)

Building Resiliency

- Express emotions
 - Social support: personal and professional
 - Therapy
- Focus on hope
 - Remember the stories of the victims/survivors you helped
 - Keep a positive email folder to look at

SELF-ASSESSMENT

Burnout Self-Test

Instructions: For each question, place the corresponding number in the column that most applies.

Questions	Not At All (1)	Rarely (2)	Sometimes (3)	Often (4)	Very Often (5)
I feel run down and drained of physical or emotional energy.					
I have negative thoughts about my job.					
I am harder and less sympathetic with people than perhaps they deserve.					
I am easily irritated by small problems, or by my co-workers.					
I feel misunderstood or unappreciated by my co-workers.					
I feel that I have no one to talk to.					
I feel that I am achieving less than I should.					
I feel under an unpleasant level of pressure to succeed.					
I feel that I am not getting what I want out of my job.					
I feel that I am in the wrong organization or profession.					
I am frustrated with parts of my job.					
I feel that organizational politics or bureaucracy frustrate my ability to do a good job.					
I feel that there is more work to do than I practically have the ability to do.					
I feel that I do not have time to do many of the things that are important to doing a good quality job.					
I find that I do not have time to plan as much as I want to.					
Total					

- What was it like filling out this self-assessment?
- Were you surprised by your results?
- Did you learn anything new about yourself?

GROUNDING TECHNIQUES

Using the 5-4-3-2-1 technique, you will purposefully take in the details of your surroundings using each of your senses. Strive to notice small details that your mind would usually tune out, such as distant sounds, or the texture of an ordinary object.

What are 5 things you can see? Look for small details such as a pattern on the ceiling, the way light reflects off a surface, or an object you never noticed.

What are 4 things you can feel? Notice the sensation of clothing on your body, the sun on your skin, or the feeling of the chair you are sitting in. Pick up an object and examine its weight, texture, and other physical qualities.

What are 3 things you can hear? Pay special attention to the sounds your mind has tuned out, such as a ticking clock, distant traffic, or trees blowing in the wind.

What are 2 things you can smell? Try to notice smells in the air around you, like an air freshener or freshly mowed grass. You may also look around for something that has a scent, such as a flower or an unlit candle.

What is 1 thing you can taste? Carry gum, candy, or small snacks for this step. Pop one in your mouth and focus your attention closely on the flavors.

GROUNDING TECHNIQUES (CONT.)

The body awareness technique will bring you into the here-and-now by directing your focus to sensations in the body. Pay special attention to the physical sensations created by each step.

1. Take 5 long, deep breaths through your nose, and exhale through puckered lips.
2. Place both feet flat on the floor. Wiggle your toes. Curl and uncurl your toes several times. Spend a moment noticing the sensations in your feet.
3. Stomp your feet on the ground several times. Pay attention to the sensations in your feet and legs as you make contact with the ground.
4. Clench your hands into fists, then release the tension. Repeat this 10 times.
5. Press your palms together. Press them harder and hold this pose for 15 seconds. Pay attention to the feeling of tension in your hands and arms.
6. Rub your palms together briskly. Notice and sound and the feeling of warmth.
7. Reach your hands over your head like you're trying to reach the sky. Stretch like this for 5 seconds. Bring your arms down and let them relax at your sides.
8. Take 5 more deep breaths and notice the feeling of calm in your body.

GROUNDING TECHNIQUES (CONT.)

Use mental exercises to take your mind off uncomfortable thoughts and feelings. They are discreet and easy to use at nearly any time or place. Experiment to see which work best for you.

- Name all the objects you see.
- Describe the steps in performing an activity you know how to do well. For example, how to shoot a basketball, prepare your favorite meal, or tie a knot.
- Count backwards from 100 by 7.
- Pick up an object and describe it in detail. Describe its color, texture, size, weight, scent, and any other qualities you notice.
- Spell your full name, and the names of three other people, backwards.
- Name all your family members, their ages, and one of their favorite activities.
- Read something backwards, letter-by-letter. Practice for at least a few minutes.
- Think of an object and “draw” it in your mind, or in the air with your finger. Try drawing your home, a vehicle, or an animal.

REFRAMING

What works for you to reset into a more positive mindset?

- Music
- Connecting with someone else
- Physical activity
- Aromatherapy
- Laughter
- Escapism: reading, TV, movie, game
- Self-improvement
- Home improvement
