

Who We Are

We Invite You to Come Build With Us!

What does Habitat for Humanity Do?

Habitat for Humanity believes that all hard-working individuals and families should have access to **homeownership**. We are committed to **partnering with families** to build safe, healthy, and affordable homes through our comprehensive family services programming!

A Partnership – Not a Charity

Habitat provides a **“hand up, not a handout,”** which promotes an atmosphere of partnership. Each family provides sweat equity building their home as well as the homes of other Habitat families.

Education for Further Success

Habitat requires partner families to take **40 hours of homeownership classes**. These classes provide the knowledge and skills necessary for each family to become self-sufficient, active participants in their community.

Their Story

“It’s a partnership...
she cares about me,
I care about her.”

-Carly Trost, Family Advocate

For Regina White, the Habitat for Humanity homeownership program was a chance to realize a dream, but the program was daunting and sometimes tugged at her confidence.

Carly Trost joined the *Family Support Committee* as an Advocate and was asked to meet Regina. The two hit it off and agreed to work together. They volunteered at the build site together; they talked about the worries of homeownership, and they shared their personal struggles. While building Regina’s house, the two built a lasting friendship.

When asked what Carly means to her family Regina replied; “She is a very good friend, someone I can rely on. I can talk to her about anything even the personal stuff. We have a lot in common and my children love her.” Carly was quick to add she feels the same about Regina; “It’s back and forth; she cares about me, I care about her. I can rely on her and talk to her too.” They say they formed a partnership that was an investment in both their futures. The advocate/partner family relationship is a two-way street; a working partnership as well as a friendship.

Regina says the process of homeownership and her relationship with Carly has helped her to feel more stable and her kids to feel more secure.
