See something else? You might be a student in someone else’s course. Be sure the role listed to the left of your name (top right corner) says “Instructor”. If it isn’t, change it to “Instructor”.

4. You have options when retrieving the evaluation results. The first is download/review the report for an individual course. Under the far right column, click the down arrow next to the course name. Highlight and click “PDF + Comments”. The file will download, making it available for you to view in any web browser or PDF reader.
If you’d prefer to retrieve the semester’s information in one file, click the box to the left of Course Code, selecting all courses. Click the “Batch Report” link. You’ll receive an email with a link to retrieve the file.

Did you get this message? This error happens when accidentally clicking the “PDF” option instead. Choose the “PDF + Comments” option.
