

COI Disclosure Instructions

Introduction

In accordance with [WSU Policy 6110](#), researchers must disclose all significant financial interests (SFIs) **that are related to or appear to be related to your WSU research, consultation, teaching, professional practice, and service.**

Travel disclosure is only required for Public Health Service (PHS) investigators.

You **do not need to disclose** income or sponsored travel from:

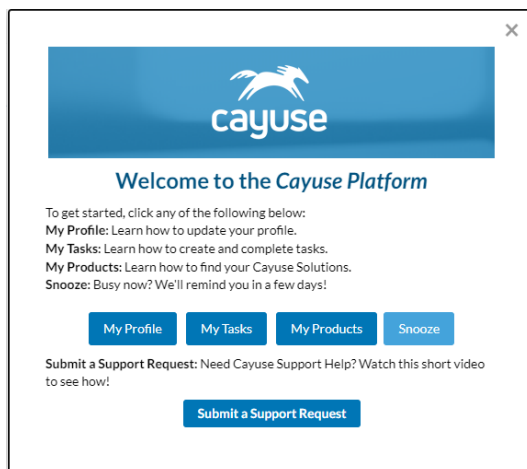

- Federal, state, or local government agencies within the United States
- U.S. Institutions of higher education (e.g., Ohio State University)
- Academic teaching hospitals, or
- Medical centers or research institutes that are affiliated with a U.S. Institution of higher education (e.g., Miami Valley Hospital).

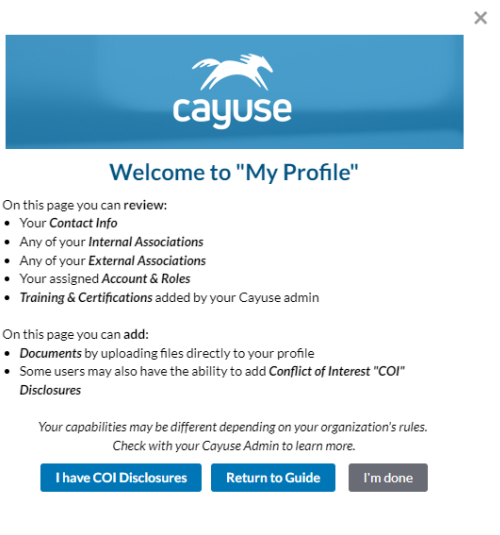

You also **do not need to disclose** income from Wright State University or income from investment vehicles, such as mutual funds and retirement accounts, as long as you do not directly control the investment decisions made in these vehicles.

You must complete this form even if you have no significant financial interests (SFIs) to disclose. Your disclosure will be kept confidential. You may be contacted by a member of the Office of the Vice President for Research and Innovation to provide additional information. If your financial interests change during the year, please submit another **Research-based Disclosure** to report those changes within 30 days.

Navigating to COI Disclosures
