Wright State University – Outdoor Resource Center
Challenge Course Program Group Assessment

Group Objectives: Please describe the end result that you envision for your groups' challenge program experience; attach another sheet if necessary. Course objectives may include reference to: trust, communication, and working roles. Issues such as active participation, risk taking, responsibility, challenge and support may also be addressed.

What are the group's strengths and weaknesses?

Are there any limitations or health concerns we should be aware of when designing your program?

Please list any specific goals for the program that may be different or more specific than your objectives previously listed.
