

## Industrial and Systems Engineering Transfer Program

Students who complete an **Associate of Science (AS) degree** at Clark State Community College may transfer into the Industrial and Systems Engineering program at Wright State University. Students should verify their satisfactory academic progress (SAP) requirements with the financial aid office before pursuing classes outside of their AS degree requirements.

### Additional Information

- Before transferring to Wright State, students should consult a Clark State advisor to determine which credits they can transfer back to Clark State to complete the Associate's degree.
- Students who would like to complete the A.S. before transferring would be required to take 12 credit hours that would not apply to the bachelor degree, including ENG 1112, COM, three additional hours in Arts/Humanities, FYE 1100, and 2 hours of electives. However, completing the associate degree prior to transfer could qualify students for additional transfer scholarships. Visit [wright.edu/transferscholarships](http://wright.edu/transferscholarships) for more information, or contact the Transfer Student Resource Center at [transfer@wright.edu](mailto:transfer@wright.edu) or 937-775-4830.

This agreement will expire two years from date of signature.
