

Repeating Courses and Replacing Grades Policy
Addendum
Quarter to Semester Transition Implementation

In replacing grades of quarter courses with grades earned in semester courses:

- (1) Quarter courses that have a direct, approved one-to-one equivalency with a specific semester course will automatically be eligible for repeat and grade replacement.
- (2) For Quarter courses that are part of a course sequence, the default repeat/grade replacement will be:
 - The grade in the first course of a two-semester course sequence will, when repeated, replace the grade of the first course in a three-quarter sequence.
 - The grade in the second course of a two-semester course sequence will, when repeated, replace the lower grade of either the second or third quarter course.

Exceptions to the above are available only through a petition process. Faculty in the departments or units offering the course(s) make decisions regarding such petitions.

In all circumstances, repeat of a single course can replace only a single course grade.
