The goal of assessment is to determine the degree to which students are able to demonstrate the knowledge, skills, or competencies stated in each of the Core Learning Outcomes. Moreover, the assessment is intended to provide **your department** information regarding patterns of student performance relative to the learning outcomes so **you** may identify opportunities for actions to improve student attainment of the Core Learning Outcomes. With that goal in mind, please identify below the student work products you plan to examine to allow you to best determine the degree to which students are achieving the learning outcomes and to assist you with learning improvement efforts.

_____ Will upload assignment(s) to Pilot _____ Will give access to assignment(s) on Pilot

_____ Paper Copies: Student workers will copy the assignment before any grading begins and scan a separate .pdf of every student’s assignment. The student worker will then create a zip file of the ungraded student work to be sent to Tammy Kahrig for entry into the Aqua system. Once the student work has been entered into Aqua, faculty listed as “Assessors” will be contacted to review a random sample of the work according to the rubric and results will be compiled and returned to your department.

II. Procedures Used for Assessment

For **each** learning outcome addressed by this report, state where and when data were collected (in a course, exam, or performance) and how they were evaluated (e.g. rubric, rating scale, key questions from exams, etc.). Specify the course or courses where students demonstrated the outcomes (if applicable) and the assignment(s) that you used for assessment purposes (e.g., capstone project, final examination, research paper, student presentation, performance, portfolio, etc.).

Papers were collected from ENG 2040: The Weird. A random sample was selected and uploaded to Watermark. The ad hoc English curriculum committee blind read each paper twice and evaluated them using a rubric for GE 4 and IW outcomes.

III. Summary of Assessment Results:

What did you find from your assessments? (Present and analyze the results from the Aqua system analysis by Vice Provost Tammy Kahrig and/or your departmental review of marker questions.) What did your data reveal about how well students are achieving the Core Learning Outcomes that you listed above? After analyzing your data, present a summary of the data, clearly indicating what any numbers represent (e.g. percentages? means? medians?). Please number each corresponding assessment, summary, and analysis.
