# MLC MONTHLY

Updates | Exciting News | Upcoming Events

Tutors of the Month

This month's tutors of the month are Rishi Wilson, Nicole Soares, Sarah Hart, Dean Fannon & Baylee Mayhugh! Great work guys, thank you for everything you do!

Quote of the Month

"There is a vague, often impenetrable, no-man's land between the discourse of poets, philosophers or people in general, and the discourse of mathematicians. People say things multiply when there is increase. Mathematicians also say they multiply when there is decrease (times half) or when neither increase nor decrease is in question (times a matrix)." - Dick Tahta.

Directors Message

I hope that you had fun Halloween! With two months gone, the end of semester is fast approaching us. Please make sure to review your math as many will come to participate in study groups and shore up their knowledge to prepare for final exams. In conclusion, I also look forward to the growth of the Math Learning Center Program Fund and reaching our target $2,083. In conclusion, if I don't get a chance to tell you, have a safe and fun Thanksgiving Break!

-Emanuel Clayton, MLC Director

Upcoming Events

- Thanksgiving Holiday - University CLOSED Thursday, November 23 to Friday, November 24
- MLC Group outing in December - TBD

Reminders:

• Remember to keep noise levels down.

• Make sure to keep aisles clear and to clean tables at the end of the day.

• Be aware of students…Keep your heads up and do not turn your backs to them.

• Keep electronics usage to a minimum.

• Ask students if they have signed-in.

• Eat meals in the hall.

• Don't forget to remind students that we are open from 100pm to 4:00 pm in the Dunbar Library.

•If you can't find a tutor, then take a look at the schedule on the file cabinet.

Problem of the Month:

Complete this problem and turn it in to either Kelsey or Shannon; if you are the first person to answer correctly, **YOU WIN A PRIZE**! Here is the math problem of the month:

The shorter leg of an integer-sided right triangle has length 2001. How short can the other leg be?

Tutor Spotlight - Dean Fannon

I wanted to become a math tutor here at Wright State because I hope to become a math teacher after I graduate. I thought that the math learning center could provide me with the experience of tutoring students from diverse backgrounds. Fun fact: I broke my arm falling down the stairs when I was 4 years old and my parents didn't know until two days after it happened!
