3. Recognize, evaluate and respond to creative, and philosophical, or religious works.

Procedures Used for Assessment

For **each** learning outcome addressed by this report, state where and when data were collected (in a course, exam, or performance) and how they were evaluated (e.g. rubric, rating scale, key questions from exams, etc.). Specify the course or courses where students demonstrated the outcomes (if applicable) and the assignment(s) that you used for assessment purposes (e.g., capstone project, final examination, research paper, student presentation, performance, portfolio, etc.).

LO 2: Data was collected from Spring, 2023, MUS 2900-90, and MUS 2900-91 Dayton Campus. Essays were used for assessment.

LO 3: Data was collected from Spring, 2023, MUS 2900-90, and MUS 2900-91 Dayton Campus. Essays were used for assessment.

Procedures:

Essays were selected at random implementing the following process: Going in alphabetical order, using last names, the essay of the first student of each letter of the alphabet. If a letter of the alphabet had three or more students whose last name began with that letter, the first and last essays were chosen.

Once the essays were selected at random, each essay was made anonymous, all identification marks were removed as were citations. Papers were then assigned to assessors to score one to four on the selected portion of the rubric for specific assessment (element 4). Assessors were not assigned to assess papers from a course that they taught.

After scores were collected from the score sheet for each the rubric required for the course (Element 4), the aggregate score was collected and in this report. If a course used the same artifacts for each of the sections, then an aggregate score of all sections was collected and averaged between the number divided by the number of essays assessed. All supporting documentation is included in folders for each course assessed.

I. ACTIONS TAKEN/PLANNED TO IMPROVE STUDENT LEARNING IN THE CORE

The results of the assessment results have been shared with the curriculum committee, who also acted as assessors. Results will also be shared with Dan Zehringer, Director of SoFPA.

Accessors found that the essays and the questions in the essay prompt, as well as the intent of the essay itself, did not match with the comprehension rubric that was selected listening). One assessor felt that the students should use source citations.

It will be discussed on whether it would be a good idea to change the assignments for assessment. Another assessor felt that the rubric needed to more clearly address assignments that were different between sections. There will also be a plan to discuss these changes to the rubrics, and/or assignments, with the curriculum committee. For that reason, the committee plans to consider changing the rubric, or further altering it so that it matches the given assessed assignment. Though the committee made some changes, the rubric as currently worded still did not perfectly match music and/or listening based assignments. The curriculum committee plans to further study the possibility of changing the rubric for future assessments.

LO 3: Data was collected from Spring, 2023, MUS 2900-90, MUS 2900-91 Dayton Campus. Essays were used for assessment.

Procedures:

Essays were selected at random implementing the following process: Going in alphabetical order, using last names, the essay of the first student of each letter of the alphabet was selected. If a letter of the alphabet had three or more students whose last name began with that letter, the first and last essays were chosen.

Papers were then assigned to assessors to score one to four on the selected portion of the rubric for specific assessment (Multicultural). Assessors were not assigned to assess papers from a course that they taught.

After scores were collected from the score sheet for each the rubric required for the course (Multicultural), the aggregate score was collected and in this report. If a course used the same artifacts for each of the sections, then an aggregate score of all sections was collected and averaged between the number divided by the number of essays assessed. All supporting documentation is included in folders for each course assessed. Individual score breakdown as well as percentages are included in this report.

The results of the assessment results have been shared with the curriculum committee, who also acted as assessors. Results will also be shared with Dan Zehringer, Director of SoFPA.

It will be discussed on whether it would be a good idea to change the assignments for assessment. Another assessor felt that the rubric needed to more clearly address assignments that were different between sections. Changes to the rubrics, and or assignments with the curriculum committee will also be discussed. Discussion will be to consider changing the rubric, or further altering it so that it matches the given assessed assignment. Possible ideas were to tailor each rubric to the specific assignments in different sections (the "Empathy" rubric seemed to suit one of the assignments better). In general, the rubrics as worded still did not perfectly match music and/or listening based assignments. The curriculum committee plan to further study the possibility of rubric alterations for future assessments.
