

**What is not recommended:**

Chromebooks, Linux OS, mobile devices, and iPads are NOT recommended for students to use as their primary device. Certain programs for classes (testing software, plug-ins, etc.) will not work on these platforms. We strongly recommend that you buy or bring a Windows PC (Windows 10) or Apple Mac device (Mac OS 10.14 or higher) to be used for school.

Certain departmental requirements may necessitate different specifications. You are encouraged to contact your primary college to address any concerns you may have about departmental needs.

**What is recommended:**

Any computer or tablet that meets the below specifications is a viable option for a student with the single caveat that individual program requirements may require additional modifications.

Information on where to purchase computer is available at: (<http://www.wright.edu/information-technology/services/personal-hardware-purchases>)

Description	Specifications
Processor	Intel Core i5 or better
Memory	8GB RAM or more
Hard Drive	256 GB or more (SSD drives are preferred)
