### Application Requirements for International Graduate Students

**Major (Degree)**  
**Physiology and Neuroscience (Master of Science)**  
**College**  
**College of Science and Mathematics**

#### Program Description

The program provides students with both a broad knowledge of physiology and neuroscience as well as concentrated experience in one specific area of specialization. The department offers a variety of graduate courses including human physiology, membrane transport, intercellular communication, ion channels, and human neurophysiology, as well as seminar and special topics courses.

While the department does not offer a Ph.D. in physiology and neuroscience, a continuation of graduate studies with our faculty—by students from this or any other graduate program—may lead to a Doctor of Philosophy (Ph.D.) Degree in Biomedical Sciences.

#### Personal Statement

**Yes**

#### Essay

B.A., B.S., or equivalent degree

#### Undergraduate Background Requirements

Suggested prerequisite courses: general biology (one year), organic chemistry (one year), general physics (one year), mathematics (one year through introductory calculus), and one year of advanced study in biology, chemistry, physics, or computer science.

#### Other Requirements

**Earned in the USA**

### Notes

- Official transcripts from all colleges/universities attended (other than Wright State) and degrees are required for most programs.
- Financial Statement is required for I-20 processing. Proof of English Proficiency is required from all international students.
