

Local resources for Wright State University international students

Restaurant Delivery

There are a number of delivery services that will deliver from a number of local restaurants for an additional fee. It is customary to add a tip for the deliverer. Many services allow you to add a tip when you order; this will also allow you to do contactless delivery, allowing the delivery to be left at your door during your quarantine period.

These delivery services throughout the Dayton area are from various restaurants such as Mexican, Chinese, Indian, American, Japanese, Italian and more.

Telephone Companies

There are 4 primary mobile service providers in the U.S. - Verizon, AT&T, T-Mobile and Sprint. Even if your phone does work, it's probably not the best idea to use your current provider as it will likely be expensive, and you may want to have a local number.

You can get your hands on an American SIM card and sign up to a cell phone plan. There is a possibility to purchase a phone with a SIM card online via these telephone companies. The phone needs to be purchased at the full price if you don't have SSN number. You can place your order with an online expert on the website through the online chat.
