COMMITTED TO SAFETY
Helping students, faculty and staff identify actions that decrease risk and increase the chance of success while partnering with our people to solve problems and contribute to the success of Wright State University.

Our goals are simple:
Protecting People.
Protecting our community.
Protecting our planet.

Safe Science
GOOD SCIENCE IS SAFE SCIENCE.
Safety is everyone’s responsibility.

Saftey training and education are essential elements of research and education.

SAFETY CULTURE VALUES:

- COMMITMENT TO SAFETY ON OUR CAMPUS AND IN THE FIELD - CONTINUALLY, NOT JUST WHEN IT’S CONVENIENT.
- ENCOURAGES OPEN DIALOGUE AND FREE EXCHANGE OF SAFETY INFORMATION.
- ASSIGNS GREATER VALUE ON PROBLEM SOLVING VS. ASSIGNING BLAME.
- LEADERS SERVE AS SAFETY ROLE MODELS.
- ENCOURAGES ANYONE TO RAISE A SAFETY CONCERN.
- EMPHASIZES LEARNING AND CONTINUOUS IMPROVEMENT.

WHY DO WE CARE?
Promoting safety in academic research laboratories has grown in recent years, following high-profile incidents in which researchers were injured or killed. Here at Wright State University we want to go beyond complying with regulations to fostering a safety culture: affirming a constant, institution-wide commitment to safety and integrating safety as an essential element in the daily work of researchers.

Your partner in safety, training and resources

YOUR ROLE?
As students and researchers, you have enormous influence over the culture in the labs where you work. Some of the strongest laboratory safety cultures are those in which researchers have taken the lead in establishing that culture. Our entire institution is responsible for promoting safety and providing you with the resources and training you need to work safely. But the day-to-day actions and practices that lead to safe laboratories demand the participation, commitment, and leadership of those who actually do the research, whose very safety is at stake.

Safe Science is a year-round initiative designed to motivate and challenge all lab personnel to be actively involved improving safety here on campus and in the field.

PRIZES & GAMES
Look for opportunities throughout the year to participate in quizzes, games and activities that can earn you or your lab prizes!

MONTHLY FOCUS POINTS
Each month we will have a new theme to help focus your labs on a specific topic in lab safety awareness.

CONTINUOUS LEARNING
Practice makes perfect! Look for opportunities to attend training, or have training brought to you! We’re happy to provide laboratory-specific training to meet your unique needs.
