University Curriculum Review Committee
Undergraduate Program Review Resolution
December 11, 2013

Whereas: The University Faculty shall determine the curricula leading to all degrees and certification programs offered by the university and shall determine the content of all courses in such curricula,

And, whereas: the Undergraduate Curriculum Review Committee (UCRC) is the body within the Faculty Senate charged with oversight of all academic review activities related to undergraduate programs and courses,

And, whereas: Wright State University’s Assurance of Learning Committee (ALC) has the responsibility to oversee the annual assessment of student learning outcomes, including university-wide programs, and conduct comprehensive program review,

And, whereas: the ALC will design the comprehensive program review process, collect supporting documentation, transmit results to the programs and provide recommendations for improvement,

Be it resolved that: the UCRC will delegate comprehensive program review to the ALC, but retains authority to review results, communicate findings, make recommendations to programs and make changes in the assessment process.
