The Wright Path to 2025
Community Dialogue on Vision, Mission and Values
March 13, 2018 Summary

On March 13, 2018 a cross-section of Wright State University faculty, staff, students and community members gathered in the Student Union Endeavor Room for a discussion of vision, mission and values to inform the University’s new strategic plan. There were approximately 39 attendees. The session was organized by the Student Government Association and facilitated by the strategic planning chair Mike Wiehe.

The meeting was divided into three main discussion topics, with topics one and two designed to elicit feelings on values and strengths, and topic three for vision of the future.

The attendees were given assigned seating at separate tables to ensure a diverse group at each table. Each person was given a handout on the topics with specific questions to reflect on and answer. Mike Wiehe explained the session and had the attendees write down in quiet reflection their thoughts to the questions posed for the topics.

Then each table came together in a group discussion and were asked to explore the values and strengths their answers to the questions represent. Each table was given a marker and large piece of paper to create a list for 2-4 values and a list of strengths. They then reported out to the room. Their thoughts are listed below.
