

BATTERIES PLUS NATIONAL ID CODE: **NA-WRIGHT**

We are excited to announce a newly established vendor program with Batteries + Bulbs through the E&I Cooperative agreement

Batteries Plus is the nation's largest and fastest-growing battery, lightbulb and smartphone/tablet repair company in the United States. With over 700 nationwide locations and access to more than 60,000 types of batteries, lightbulbs and accessories, Batteries Plus has the widest selection of battery and lightbulb products available to meet all your needs.

Program Highlights

- Ordering can be completed through the **WrightBuy** portal.
- Special E&I contracted pricing on the most popular items with discounts up to 73% off retail.
- Local deliver, shipping or in-store/curbside pickup options available!
In-store purchasing at over 700 locations nationwide for last minute needs. Find your local store here: <https://www.batteriesplus.com/store-locator>.
- Dedicated national account team with local experts to assist with technical needs.

FREQUENTLY ASKED QUESTIONS (FAQ)

What is the account number? Batteries Plus does not use account numbers. They use national account ID codes. The Archdiocese of St Louis's national account ID code is **NA-WRIGHT**. When working with Batteries Plus you can provide the **NA-WRIGHT** account code during any inquiries.

Why am I being charged a Core fee for some batteries? A core fee is a form of deposit paid when you purchase a new battery and is refunded to you when the used battery is returned to Batteries Plus. This is most common for large format batteries that contain a large amount of lead. Battery core charges are required by law and promote battery recycling.

How are Core fee's applied to a P.O. and credited when returned? Core fees are applied at the time of purchase as a separate line item through [Shop Catalogs](#). If a Core is returned during the time of delivery or pick-up, the core fee will be credited to the original P.O. The core fee is fully refundable at this time.

What happens if a Core is not provided to Batteries Plus when the new battery is delivered or picked up? Users have two weeks to return the core otherwise the fee will apply—no exceptions.

What is the typical delivery timeframe? Most stocked products are delivered within 1-3 business days. For non-stocked items, it might take 3-7 business days depending on the products.

Where will my products be delivered? Orders will be shipped or delivered to the "Ship-To" address on the purchase order if delivery is requested.

Are there delivery fees? All orders over \$50.00 have no delivery fee. Orders under \$50.00 will have a \$9.95 delivery charge.

For all product orders containing Starting, Lighting, and Ignition(SLI) batteries and Sealed Lead Acid (SLA) batteries or orders outside of the contiguous 48 states, a quote on any environmental fees and delivery costs will be provided

Who do I contact if I have a question? You can contact the Batteries Plus national account customer service team at NAORDERS@BATTERIESPLUS.COM or (800) 770-7440. You can also contact your local Batteries Plus store in your area.

Will be able to work directly with my local Batteries Plus location? Yes, nothing will change with your existing or local relationship. Make sure your local Batteries Plus location understands your national account ID of **NA-WRIGHT** is the proper account.
