6) International Students and Licensing

International Students can drive for at least 30 days on their International License from their country. They do have to have their passport and visa with it. Non residents even have one year. The license will be a foreign license not one bought here in the US.

However students are advised to get an Ohio OL as soon as possible for less delays and ease of operation but it is their choice before the 30 day mark for residents and one year for non residents.
