Average Student Loan Debt and Percentage of Students Who Borrowed by College.....	28

Glossary

The Office of institutional Research uses the following definitions when compiling data:

Institutional Definitions

Intended major/college: The academic area that a student plans to major in. Students who are in intended majors are advised in University College.

Direct Admit: Students who meet certain academic standards (determined by the academic college) may be directly admitted into the degree-granting college. Students who are directly admitted are advised by the college of admittance.

Developmental Courses (DEV): DEV courses are provided for students who are under-prepared in mathematics and/or writing to help prepare them for entrance into and successful completion of general education courses.

The following race/ethnicity descriptions may be used:

- Two or more races
- Minority: Any race indicated as non-white
- Under-represented Minority: American Indian or Alaska Native, Black or African American, and Hispanic/Latino

Consortium for Student Retention Data Exchange (CSRDE)

CSRDE conducts annual retention studies which provide executives at two-year and four-year institutions with access to timely, comprehensive, comparative benchmarking data on retention and graduation.

Student Achievement Measure (SAM) and The College Portrait

SAM and The College Portrait provide a more comprehensive picture of student progress and completion than the traditional retention and graduation reports such as IPEDS (Integrated Postsecondary Education Data System). Data in these reports tracks initial cohorts across institutions and state boundaries, giving a more accurate portrayal of the outcomes of the initial cohorts.

Expected Family Contribution (EFC)

The expected family contribution is a measure of the family's financial strength and is calculated according to a formula established by law. The family's taxed and untaxed income, assets, and benefits (such as unemployment or Social Security) are all considered in the formula. The family size and number of family members who will attend college during the year are also considered.

Pell Grant Program

Provides grant assistance to eligible undergraduate postsecondary students with demonstrated financial need to help meet education assistance.

Socio-Economic Status (SES)

An economic and sociological combined total measure of a person's work experience and of an individual's of family's economic and social position in relation to others, based on income, education, and occupation.

Glossary

Integrated Postsecondary Education Data System (IPEDS) Definitions

Conducted by the National Center for Education Statistics (NCES) and involves all annual institution-level data collections. All Title IV institutions are required to report data for the following student institutional characteristics: enrollment (12-month and fall), completions, graduation rates, and student financial aid.

First-time student: A student who has no prior postsecondary experience attending any institution for the first time at the undergraduate level. It includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

Transfer-in student: A student entering the institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). This includes new students enrolled in the fall term who transferred into the institution the prior summer term.

Initial cohort: All students who enter an institution as full-time, first-time degree-seeking students during the fall term of a given year.

Retention rate: A measure of the rate at which students persist in their education program at an institution. The rate is the percentage of first-time bachelors degree-seeking undergraduates from the previous fall who are again enrolled in the current fall.

Graduation rate: The number of students in an *initial cohort* who complete their degree within 150 percent of normal time to completion (6 years for a bachelor's degree).

Race/Ethnicity: Individuals are asked to first designate ethnicity as: Hispanic/Latino or Not Hispanic/Latino. They are then asked to indicate all races that apply among the following:

- American Indian or Alaska Native
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White

5 Years	68%	\$27,446
6 Years	71%	\$28,959
All Graduates	72%	\$31,552

Limitations

There are several limitations to this analysis. First, it is restricted to students who first began their studies at Wright State University based on students' academic transcripts (i.e., transfer students are not included). Second, student fees and other financial aid awards are not considered. For example, the campus at which the students enrolled (Dayton and/or Lake), students' total credit hours, students' residency (in-state versus out-of-state), additional program costs and other types of aid received can all affect students' financial aid packages and the amount of loans they may be eligible to borrow. Last, only those loans administered through the Office of Financial Aid are included.
