

Faculty Senate Newsletter

Boonshoft School of Medicine

FSM: March 23, 2015

Pub: April 1, 2015

From the President's Report:
Tom Sudkamp, Vice President for Curriculum and Instruction, reporting for the president:

●President David R. Hopkins attended the launch of the Rise. Shine. Campaign at Lake Campus on Sunday, March 22, 2015. Regional events for the Rise. Shine. Campaign have taken place in several areas across the nation such as Tampa, Houston, Los Angeles, and Washington.

●We have seen an increase in fall enrollment applications from last year; main campus enrollment has increased 9 percent, transfer students 11 percent, graduate applicants 10 percent, and Lake Campus undergraduate applicants 38 percent increase. In addition, Lake Campus has received approval from the Ohio Board of Regents to offer

the Nursing Degree in the fall; the proposal for the business degree is currently under consideration and they hope this program will be approved for the start of fall as well.

●The HLC Accreditation open forum was held on Friday to thank the committee members for their efforts and to mark the visit as being exactly one year away; HLC Accreditation Team will begin their review process March 2016. The Assurance Argument, a new accreditation process, is in the second draft and will be posted on the website for review this summer. Monthly notices will be sent to keep the university community apprised as we move through the process.

●The Student Success Center opens its doors for Summer Orientation in May, the first orientation is

scheduled May 30. University College Advising Team will move in to their new location one week prior to this event. The classrooms are available; you may contact the Registrar's Office for scheduling.

●Teaching Innovation Grants provide support to the University for Development of new courses and course redesign. Sean Pollock will lead a committee comprised of the Faculty Advisory Board and CTL to review grants and make recommendations by mid-April.

From the Provost's Report

Mark Polataiko, Vice President for Business and Finance reporting for the provost:

●The Budget Workshop schedule is being moved from the traditional April date to June to better align with the state budget operating cycle, an approach which will provide a more accurate and comprehensive budget. The new date for the Budget Workshop is scheduled for June 4 and will be live web streamed for those who are off campus. Announcements regarding the Budget Workshop will be sent to the university community.

●The first three service units to be reviewed under the new Mission Driven Allocation (MDA) Model are Enrollment Management, Human Resources and the Bookstore. The review will be conducted in three phases:

Phase 1: Current Service Levels

Phase 2: Current State to Desired State

Phase 3: Budget Alignment

Results of the service unit reviews will be shared on the MDA website.

●The location of the Salt Barn site has changed in response to a variety of factors such as compliance with federal and state regulations as well as service location optimization. The soccer field at Kauffman and Wright State Roads has been selected for the new site.

Executive Committee Reports

Lectern Design

A new, lightweight lectern will replace older lecterns in classrooms where the professors and instructors request them. The new lectern is a result of a competition among Wright State engineering students. The winning design, by Evan Williams, weighs 2.5 lbs. and is less expensive to fabricate than commercial designs.

University College Advising

As more colleges move to lower their admission policies, citing retention concerns, the Executive Committee is concerned about options available to students who may not be successful in their first major. The Committee believes the university, not individual colleges, needs to systematically collect retention data through Institutional Research and that the colleges need to work with the university administration to create options for students needing advising before they can transfer to a new major or college. As being "sent back" to University College might be seen by at risk students as another defeat the Executive Committee recommends that an intercollege transfer unit be created to serve students who choose a college but later decide that it is not a good fit for them. Getting students into the right major should be a priority.

Prerequisite Checking

The Executive Committee reminds the Prerequisite Checking Committee that any implementation of prerequisite checking must be flexible, allowing departments to identify prerequisites to be enforced either by the Registrar or by individual programs. This is needed to help specifically graduate students and transfer students, whose transcripts may not show a prerequisite course in a way recognized by Banner. The Executive Committee believes that maximum flexibility should be maintained so as to minimize harm to students.

March Business

International Programs

The Senate reviewed the Report and Recommendations of the Undergraduate Academic Policies Committee regarding language proficiency for undergraduate international student admissions. The report recommends revising minimum standards of

English proficiency such that, for students presenting IELTS scores, admission would require a band score of 5.5 with no subscore lower than 5.0. Thus, a high score in one area will not mask a poor score in another. Compared with other Ohio public universities, Wright State's English language proficiency requirements are among the lowest in the state. The concern is for undergraduate international students struggling to succeed in maintaining passing GPAs. This policy was moved to old business and will come up for a vote at the April meeting.

General Education Core Open Forum Sessions:

Wednesday, April 1, 2:30-4:15, 143 MedSci

Friday, April 3, 2:30-4:00, 401 Millett

[Report](#) and [Presentation](#) to the Senate

General Education Review

The General Education Review Committee has reviewed the current requirements, and recommended changes to the Wright State Core in order to allow greater flexibility for students. The current Wright State core currently requires 38 hours, whereas the proposed core includes only 37 hours. The proposed core would include courses in the following subjects with specified hours: Written Communication (6), Mathematics (3), Arts/Humanities (6), Social Science (6), Natural Science (7), and General Electives (9). New features include permitting students to take one non-lab natural science course and lifting the prohibition against taking both social science courses in the same area. The two course multicultural competence requirement would be reduced to one multicultural literacy core elective, but additional options would be made available in other areas, enabling students to take additional multicultural literacy courses throughout the Core. Finally, the committee recommends lifting the IW tag and requirement in favor of making appropriate written and other communication central to all general education courses. This proposal was moved to old business and will come up for a vote at the April meeting. Open forums on the proposed changes to the Wright State Core are scheduled for 2:30pm, Wednesday, April 1 in 143 Med. Sci., and 2:30pm Friday, April 3, in 401 Millett.

Report and Recommendations of Ad Hoc Academic Policy Review Committee (APRC)

Adjustments to the Faculty Handbook were passed unanimously during this month's meeting. These were minor alterations of language to bring outdated policies in line with actual practices or the CBA. These include policies governing student evaluation of instruction, final examination policy, academic freedom and professional responsibilities, promotion and tenure, and promotion to Senior Lecturer. Other revisions to academic policies that were approved include:

●A change to the academic [dismissal and readmission policy](#) clarifying that all readmitted students are subject to the catalog in force at the time of readmission and must meet degree requirements in effect at the time of readmission.

●The policy on transfer credit for military training revised to tie refunds for courses dropped courses if the student can demonstrate has equivalent knowledge or training military experience to the current university refund policy.

●A streamlined new course addition, modification, deletion, and sunset policy was approved. The policy reflects the curricular workflow now in place and introduces more stringent language covering method of instruction for new courses and for courses being newly offered in a distance mode or offsite. These changes reflect accreditation

needs.

[CEHS HPE Admission Policy \(UAP\)](#)

Revised admission requirements for Health and Physical Education were passed unanimously. In addition to existing academic requirements, students must demonstrate completion of a first aid program, CPR certification, and completion of a concussion course. These completions and certifications mirror state of Ohio requirements to earn a coaching permit and address Ohio law on concussion in physical activity and sport settings.

[Course Substitution Policy for Undergraduate Students with Disabilities \(UAP\)](#)

Undergraduate students with documented disabilities may now apply for course substitution if the student cannot be successful in a traditional course because of functional limitations imposed by the disability. Each college will identify which courses may be substituted and the courses that may serve as substitutions. A request for course substitution will be handled individually and will require direct action by the student with the disability. Under the policy a student must request the substitution two to three semesters prior to the anticipated completion of the degree. Then the student must submit a letter requesting the substitution to ODS, which will then forward documentation and a formal request for substitution to the student's academic degree dean. The dean will forward the request to the department offering the course or, in the case of a Wright State Core course, to the University Curriculum Committee.

Faculty Line

●2015-16 Committee Volunteer [Form](#)

(Faculty are not required to be senators in order to serve on a senate committee).

●Election Info and AY2015-16 [Roster](#)

(All individuals listed are elected to a 2-year term with one noted exception).

Here are the results for the election:

President

Carol Loranger

Vice-President

Doug Petkie

BSOM (elect 3)

F. Alvarez-Leefmans

David Mirkin

Nick Reo

COSM (elect 4)

Ann Farrell

Thaddeus Tarpey

Dan Krane

Bev Schieltz

Gale Kleven (will replace Doug Petkie, 1 year term)

CECS (elect 1) Travis

Doom

CEHS (elect 2)

Stephanie Davis

Carl Sabo

COLA (elect 4)

Susan Carrafiello

Barry Milligan

Sean Pollock

Marjorie McLellan

CONH (elect 1)

Rosemary Eustace

LAKE (elect 2)

Mark Cubberley

Weiquon (Will) Zhang

RSCOB (elect 3)

Berkwood Farmer

James Hamister

Burhan Kawosa

SOPP (elect 1)

Michelle Schultz

●Faculty Senate [Meeting](#) dates, agendas and minutes.

●Next scheduled Faculty Senate Meeting: April 20, 2015. President Hopkins will host a reception for all retiring, returning and new senators at 1:30 p.m. in the Skylight Lobby (outside of E156 Student Union) prior to the Senate Meeting on April 20.

By Faculty Senate Interns: Talya Flowers, Arica Rohn and Elizabeth George
