

Help Scientists Find the Genes that Cause Bipolar Disorder and Schizophrenia

Researchers in the Department of Psychiatry at the Wright State University Boonshoft School of Medicine are looking for genetic markers for bipolar disorder and schizophrenia through a nationwide study, "Genomic Psychiatry Cohort."

You may be eligible to participate in this study if you:

- Are 18 or older
- Are of African-American ancestry
- Do not have a diagnosis of bipolar disorder or schizophrenia
- Do not have immediate family members who have bipolar disorder or schizophrenia

If you take part in this study:

- You will be required to fill out a health questionnaire
- You will be required to read and sign a consent form
- You will be required to give a blood sample
- You will receive a \$20 gift card

The study will be conducted:

September 26–29

9 a.m.–4 p.m.

Wright State University

Student Union

Mariner Room, room 105

No appointment necessary.

Walk-ins accepted.
