## about visiting professor Fernando Stein, MD

Fernando Stein, MD, FAAP, served as the president of the American Academy of Pediatrics (AAP) in 2017. Dr. Stein is a practicing pediatrician and critical care specialist delivering bedside care for the past 35 years in Houston, Texas. A native of Guatemala, he did his specialty and sub specialty training at Baylor College of Medicine-affiliated institutions. He is a founding member of the AAP Section on Critical Care and past member of the Council on Sections Management Committee and Committee on Membership. He is one of the original members of the Task Force on Minorities. Dr. Stein has been an advocate for children in

impoverished environments at the global level as a member of the technical advisers for the Integrated Management of Childhood Illnesses of the Pan American Health Organization.
