

Ohio Physiological Society

A chapter of the American Physiological Society

34th Annual Meeting

September 20—21, 2019

Wright State University, Dayton, Ohio

Keynote Speaker

Robert T. Dirksen, PhD

Chair and Lewis Pratt Ross Professor of Pharmacology and Physiology
University of Rochester Medical Center

“Why do Mice Run Better with SOCCs?”

Physiology | Molecular Mechanisms | Pharmacology | Translational Research

A vibrant conference that brings together principal investigators, postdoctoral scholars, and students from across Ohio (Case Western, Ohio University, Ohio State University, University of Cincinnati, University of Toledo, and Wright State University, NEOMED, plus many others). This year, OPS will be linked with the Wright State College of Science and Mathematics (CoSM) annual Festival of Research. OPS provides an excellent opportunity for undergraduate students, graduate students, and other trainees to present their work in friendly, supportive atmosphere.
