

Student Success Dashboard Resolution

Whereas, enrollment and retention is a central issue to Wright State University, with a substantial impact on tuition revenue, student success and completion outcomes and the ultimate sustainability of the institution; and

Whereas, critical student enrollment, retention and success data formerly made available through the annual Student Fact Book¹ and Student Success Reports², as well as the Tableau³ and SIBI⁴ data analytics initiatives, has not been updated or made widely available to the campus community since 2016; and

Whereas, the Undergraduate Student Success Committee and other committees of the Faculty Senate are working to make data-driven decisions on academic and student support policies that directly impact enrollment, retention and other student success outcomes; and

Whereas, the work of the Faculty and associated positive impacts on enrollment, retention and student success outcomes cannot be accomplished without accurate, comprehensive, freely available and easily accessible data; now, therefore be it

Resolved, that the University should accelerate its efforts to provide accurate, comprehensive, freely available and easily accessible dashboards from which critical enrollment, retention and other student success data can be easily extracted, disaggregated and visualized by the faculty, staff and other members of the campus community who are working to secure the sustainability of Wright State University through the success of the students it serves.
